

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 20.

BLAIRMORE, ALBERTA, THURSDAY, MAY 17, 1924.

\$2.00 YEARLY

WILL ESTABLISH BAKERY IN CROWS' NEST PASS

Kirkby Brothers, who were burned out at Lethbridge a few months ago, have been, up through The Pass during the week looking for a bakery location.

Considerable of Kirkby's former

trade came from this district and they figure that Blairmore or Coleman will make a far more suitable distributing point. They have secured premises in the Graham Block at Coleman and expect in the course of a few weeks to be ready for business. Their line, we understand, will be strictly wholesale.

SPECIAL MEETING OF EXECUTIVE OF BLAIR- MORE BOARD OF TRADE

A special meeting of the executive of the Blairmore Board of Trade was held in the office of Gillis & MacKenzie on Thursday evening, when replies to correspondence in connection with customs and postoffice facilities were read and considered. Letters from Ottawa were indeed encouraging, particularly a personal letter to Mr. Gill's from Hon. Charles Stewart, minister of the interior and former premier of Alberta. Mr. Stewart has always had a warm spot in his heart for Blairmore, and that warm feeling has not been lost since his taking up the larger field at the Dominion capital. Mr. Stewart realized fully the lack of accommodation here and the importance of serving this growing community and district.

It was felt at the meeting that about \$12,000 would cover the cost of the building required, and the town has kindly offered a site close to the present new Union Bank building, which is centrally located and near the depot.

Judging from replies received from Ottawa, there is reason to feel that the Dominion government will accede to the appeals from the town and board of trade and that the estimates to be submitted to the House shortly will provide for the necessary funds.

PYTHIAN SISTERS LODGE TO INSTITUTE HERE

At a meeting to be held in the Castle Hall tomorrow night, a lodge of Pythian Sisters will be instituted.

Rev. Dr. James A. McDonald, former editor of the Toronto Globe, died at Toronto on Monday.

BUILDING PERMITS TOTAL ABOUT \$28,000

Building permits granted by the town council on Monday night run into figures reaching \$28,000 and judging from reports, this constitutes only a small portion of the buildings to be erected here this year.

The meeting on Monday night was presided over by Mayor McLeod, while Councillors J. Angus McDonald, J. A. McDonald, Evan Morgan, Owen Morgan, A. Mooney and W. Patterson were in attendance.

The minutes of last regular and special meetings were approved and the following accounts were duly passed for payment: Blairmore School District \$1400.00, D. McLennan \$10.00, J. Stewart \$4.00, J. Gibos \$4.00, B. Serandi \$22.00, J. Lenchucha \$12.00, J. Kubie \$6.00, J. Davis \$32.00, J. Kikoski \$16.00, M. Leasky \$16.00, T. Jones \$20.25, R. Crayford \$6.90, Petty Cash \$25.00, J. Fojman \$16.00, E. Hinds \$6.00, McLaren Lumber Co. \$106.50, S. Ennis \$77.00, L. H. Putnam \$62.50.

G. N. Elwin and W. A. Henderson, representing the Blairmore Board of Trade, approached the council to ask for a compete at the rear and slightly west from the Alberta hotel; also for water and light extension to same. The council were informed that it was the intention of the Board to have the grounds cleaned up of underbrush and made and kept in a sanitary condition, that tables, cooking shelter, stove, etc., were to be supplied and every other convenience possible for the camping tourist. The delegation was well received by the council, who promised that their appeals would be granted.

Dr. J. Olivier and Mr. Harry Burns constituted a delegation from the Crows' Nest Pass Automobile Association, praying for the town's co-operation in a plan for the betterment of the main highway through the district. The Association planned on assessing, or rather collecting, the sum of five dollars from each of the five hundred auto owners in the district between Lundbreck and Crows' Nest and thereby raise in the neighborhood of \$2,500. The government would add some \$5,000 to this amount, which was to be spent upon the roads in repair work. The municipalities through which this highway leads would be expected to either subscribe to this fund or fix up that portion of the road within their limits, in which latter event the government road grader and equipment would be at their disposal. By this scheme it was hoped that the road through the entire district would be placed in proper shape and kept up at the minimum of cost. The council promised to go into the matter and advise in the course of a few days.

Mr. L. Dutil, chairman of the school board, asked the council for a grant sufficient to meet the May and June payrolls. He informed the council that the board underestimated, in their estimates for the year and now found themselves pinched until the 1923 revenue was forthcoming. On resolution by Councillors J. Angus McDonald and Owen Morgan, the sum of \$1400 was granted to meet the May 31st payroll.

A copy of letter from the Department of Public Works and reply by the Mayor were read to the Council. The Department several months ago assured the Mayor that the work of straightening out the McVey or Boundary bridge, east of town, would proceed early in May. Now the department wished to advise that it could not see the way clear to do it this year. The Mayor said he would continue agitation for this work.

A. E. Ferguson was granted the sum of \$50 towards cleaning up the cemetery.

The West Canadian Collieries asked co-operation from the town towards grading Victoria Street at a point between Fourth Avenue and the

Compound Interest

Suppose a boy of 18 determines to save six dollars a week. At three per cent compound interest he will have on his twenty-fourth birthday \$2,037 of which \$165 will be interest.

The longer your savings account grows the larger it grows and the faster it grows. Is compound interest helping to make you independent?

Double your Savings, It CAN be Done.

telephone office. Council promised to look into this matter also.

Quotations were received from the Riverside Iron Works for the supply of 6 or 8 stand-pipes.

Application of P. Ubertino, of the Orpheum Theatre, for permission to erect a canopy at the front of his theatre was referred to the works and property committee.

Application of C. A. Harrison for permission to build a 16 x 22 garage was granted.

Several other permits to build or remove buildings, build verandas, etc., were granted, subject to approval of committee.

S. Trono asked permission to build a store building of 50 x 25 feet dimensions on Victoria Street, on lot 9 in block 4. The plans called for a single-storey building with full basement, basement of stone and concrete, main building of brick and tile. Permit was granted, work to commence immediately.

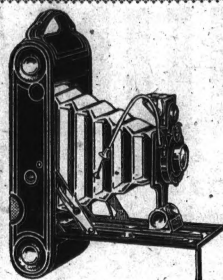

E. J. Pozzi made application for permission to erect a theatre building of brick on his lots at the corner of Fifth Avenue and Dearborn Street. Plans called for a building size 115 x 32 feet. Permission would be granted upon receipt of specifications.

E. J. Pozzi made application for connection with the electric power line and for current for the purpose of operating his new wash and door factory on Dearborn Street, Councillor J. Angus McDonald took occasion to score Mr. Pozzi for alleged attempt to ignore the town by-laws, in that Mr. Pozzi had proceeded without first securing permission from the town. Mr. Pozzi claimed he had no idea the town's building by-law applied to the south side of the town, hence his failure to obtain permit. In this connection, Mr. Pozzi was charged a few days ago before Magistrate Gresham for an infraction of the town's building by-law and paid a fine of ten dollars. Mr. McDonald stated that as a result of Mr. Pozzi's action he would "refuse to grant him anything." The council, however, decided to grant Mr. Pozzi's request, Mr. McDonald not voting on the question. Owing to the lateness of the hour, consideration of the new garbage by-law was deferred.

Council adjourned at 11:37 1/2 p.m.

THE CANADA STARCH CO., LIMITED

(Continued)
"Yes," he nodded. "I believe it is."
"Somebody was here with him?"
"Her voice was a blend of attempted
confidence with distressing doubt."
"My dear, I have painful news for
you."

"With Gordon?" The question was
almost a sob. "Who, indeed?" Dor-
othy Funnell.

Heaven dropped into a chair, and go-
ing to her, the Senator placed his
hands on her shoulders. She looked
shrinker, years older, with the bloom
of youth bright as frost strikes a
flower, but even in the first and worst
moments of her grief there was dig-
nity in her. In a measure Rose Moran
had prepared her for the blow, but
what she herself had seen of the
partisanism between Dorothy and
Gordon.

"You must be brave, my dear," her
father soothed, "because it is neces-
sary that you should know. Rose
came upon them here last night, in
each other's embrace, I believe, and
with the girl's help, Wade got the up-
per hand."

"Are you sure it was Gordon?" Her
cold fingers held to his warm ones as
in her childhood days, when she had
run to him for protection.

"His quilt is there on the desk."
"But why should they have come
here, father—here of all places?"
"Doesn't that seem very improbable to
you? That is what I can't under-
stand. Why didn't he go to his
house?"

"For fear of arrest, I suppose. Their
reason for coming here you have fully
expressed. Helen, because it offered
them the safest refuge, at that time of
trouble, in Crawford's house. The offi-
cer had not been out at night since we
repaired it, and besides Moran has been
doublet-hung with me and his sole reason
for coming here. The safe had been
removed, and drunkenness his chief re-
fuge was robbery."

She sprang to her feet and stood
facing him with flaming cheeks, aver-

**WOMAN SUFFERED
FOR MONTHS**

Weak and Nervous. Made
Well by Lydia E. Pinkham's
Vegetable Compound

Webbwood, Ont.—"I was in a very
weak and run-down nervous condition,
always tired from the time I got up
until I went to bed. Sleep did not rest
me at all. My sister recommended
Lydia E. Pinkham's Vegetable Com-
pound to me and I started to take it. I
soon found it was doing my sister's
work. I took it. It did not take long
until I felt stronger, headaches left
me and my appetite came back to me.
I am a farmer's wife and have many
things to do outside the house, such as
milking, looking after the poultry, and
other chores. I strongly recommend the
Vegetable Compound to all who have the
same trouble I had. For it is a fine
medicine for women."—Mrs. L. E. Webb-
wood, Webbwood, Ont.

Another Nervous Woman Finds Relief
Furti, Minn., Mich.—"I suffered
for two years with nervousness, and
if I worked very much I was nervous
and just as tired in the morning as when
I went to bed. I was sleepless all the
day and didn't feel like doing anything,
and was so nervous I would bite my finger-
nails. One of my friends told me about
Lydia E. Pinkham's Vegetable Com-
pound, and it helped me so much that I
soon felt fine."—Mrs. C. A. Furti, 411
3rd St., Fort Snare, Minn.

Women who suffer from any feminine
trouble should try Lydia E. Pinkham's
Vegetable Compound.

W. N. S. 2123

You offer it to me, but that's all." His
withered face twisted into a grin.
"You're needed in all one of these
days to pay for your home-coming!"
I read the signs right. "Ain't that so,
son?" He laughed softly at me and
flushed. "Shake, boy? Put 'er
there! I wish you all the luck that's
coming to any young man, by the great
horrors, I do!"

During the whole of the morning
they examined the crown metal as
found signs of the evil metal as
most everywhere. At one point,
Wade broke a knot of rock from the
face of the cliff, the under surface of
which was seamed and streaked with
golden veins. "Sentry could scarcely
restrain himself, usually taciturn, he
was for once as light-hearted and joy-
ous as a boy. But on the way back
to the ranch-house he became serious.

"Say, ain't the bulk of that gold on
that forty-acre tract that you took up
as a timber claim?" he asked.

"Yes," Wade answered. "That is,
if it can be run over the
lines this afternoon and made sure."
I reckon we'd better make sure,
and if it'll be all right, I'll let you
see it. You get your deed. Your home-
stead rights might be hard to claim
now that the deed is in the hands of
the government. Moran is most likely
keeping his mouth shut for reasons of his own,
and he may not know about your
having proved up yet, but some other
lumper might get wise."

"I don't think of one around here
would count my right to the land."
"Still, as you say, it's better to be care-
ful. The gold will keep. We
haven't heard the last of Moran and
his crowd yet, not by a long way."
He chuckled grimly. "I wonder if any-
body's cut him loose yet."

"I reckon they have, boy. He'll
keep monkeying around this territory
until he meets up with some fellow like
me, with a bad temper and a quick
gun hand, who'll make him good the
same way we wester make good in-
jun." "Hello, steady!"

Although they were now in sight of
the house and the men hanging about
it for the noon-day meal, Sentry had
not relaxed his caution. He had
picked out two moving dots in the
distance, which presently developed
into galloping horses.

"Can't be nobody looking for
trouble," he observed, and presently
he was talking to a woman. "Take a good
look, boy. I reckon you know one of
'em."

The horses came on rapidly, until
upon the foremost of them Wade
could see the fastening skirt of a wo-
man, while the other he recognized
as belonging to Lem Towbridge even
before he could clearly make out the
rider.

"Tell the cook we'll have company
to dinner," Wade called to Sentry as
he untied a horse from the hitching
rack near the barn and rode off to
meet the newcomers.

With fine presence, Towbridge,
when he saw him ride toward them,
drew his horse down to a halt. He
was directly in the rear when Dorothy
and Wade met.

"Might as well see you," he greet-
ed her, "but that goes without say-
ing."

"Thanks," she responded, hoping
that he would attribute the brighten-
ing of her cheeks to the exertion
of the ride. "I thought you'd ride
out to see how you were getting
along."

Despite her blush, that had come at
the recollection of his kiss the night
before, she still looked him straight in
the eyes, but when he smiled at her
an attitude of surrender, which he un-
derstood and which touched him.

There was something about her
look, but an engaging womanliness,
which would have appealed to any de-
cent, even with the least of her
pulses. She wore a wide felt hat,
from beneath the brim of which her
fine features, shaven of its moustache
by the jolting of her gallop. A
flannel blouse, which was most be-
coming, and a divided skirt complet-
ed a sensible costume, which seemed
to Wade more attractive than any he
had ever seen in the Bar. He rode
with the straight stirrups of the cat-
tle country, and sat her mount with
the grace of a horsewoman.

"What's happened to Moran?" he
asked, waving his hat to Towbridge,
as the latter rode toward them.

"He's out and away again. I saw
him this morning. He was an awful
sight. You must keep your eyes
open, Moran, you must. He's
more dangerous than ever now."

"Oh, I guess we've clipped his claws
for a while," he said lightly, unwilling
that she should be anxious for his
safety, sweet, though he found her
strangely to be.

"Hello, yourself!" They shook
hands, the firm handshake of strong
men, and then all three rode on to-
gether to the house.

After dinner, the plainness of which
made nothing of such appetites as
their outdoor living had aroused, they
sat on the porch. The men were
discreet and Dorothy quite content
in the contemplation of the sweetness
which her heart had found.

"There are things going on your
place, Lem," asked Wade.
"Sure, Gordon's. That's one reason
I made over to see you. Have you
heard about the fight on my range?"
You haven't?

floor space and employs 250 clerks.

GIN
PILLS
FOR THE
KIDNEYS

"YOUR TEETH"

THE TOOTH BRUSH DRILL

By Dr. Foster McGee, M.D., D.D.S., Pittsburgh, Pa.

The size of the tooth brush, as well
as its shape, is a matter of personal
opinion. It would be reasonable to
use a large brush for a large mouth,
and a small brush for a small mouth.
The bristles should be of medium
stiffness and good quality. There
must, of course, be a dentifrice. This
may be any good tooth powder or
paste, or merely clean soap. A good
powder, however, is preferable to any
other dentifrice. One of the main
things is to brush the margins of the
gums.

Silk floss for cleansing between the
teeth is a splendid aid.

During the last eight years of school
dentist clinics in Cincinnati, the fol-
lowing tooth brush drill has been
worked out and is used successfully to
teach children how to clean their
teeth:

Attention—Hold brush up in right
hand at the height of the shoulder, in
front of child. (This is so as to be
able to see that the brush is clean.)

Upper Teeth—1. Place brush in
mouth, upper right, where the gum
and teeth join. Turn down towards
grinding surface eight times.

2. Brush upper front. Place on
gum and turn down eight times.

3. Brush upper left. Place brush
on gum, turn down eight times.

4. Brush upper right inside. Place
brush on gum and turn down eight
times.

5. Brush upper front inside. Place
brush vertically, brush down eight
times.

6. Brush upper left side. Place
brush on gum and turn down eight
times.

7. Place brush on grinding surface
of teeth, upper right, scrub forward
and back eight times.

8. Brush lower front. Place on
gum, turn up eight times.

9. Brush lower right inside. Place
brush on gum, brush up eight times.

10. Brush lower front inside. Place
brush vertically, brush up eight times.

11. Brush lower left inside. Place
brush on gum, turn up eight times.

12. Place brush on grinding surface
of teeth, lower right, scrub forward
and back eight times.

13. Place brush on grinding surface
of teeth, lower left, scrub forward
and back eight times.

Lower Teeth—3. Place brush in
mouth, lower right, where the gum
and teeth join. Turn up towards
grinding surface eight times.

4. Brush lower front. Place on
gum, turn up eight times.

5. Brush lower right inside. Place
brush on gum, brush up eight times.

6. Brush lower front inside. Place
brush vertically, brush up eight times.

7. Place brush on grinding surface
of teeth, lower right, scrub forward
and back eight times.

8. Place brush on grinding surface
of teeth, lower left, scrub forward
and back eight times.

Attention—Hold brush up in right
hand. (See how clean the brush is
now.)

Last—See that each child's brush
is thoroughly rinsed with fresh water
and put away in a clean place.

British Changing Naval Policy

Assigning Fleet to Stations for Pro-
tection of Trade Routes

A complete change in British naval
policy is announced in connection with
the construction of a naval base at
Singapore, for which the House of
Commons is being asked to vote five
million pounds. The destruction of
the German navy makes concentration
in the North Sea unnecessary and the
British Admiralty is therefore reverting
to its former policy of assigning the
fleet to world stations chosen for
their strategic value in protecting the
trade routes.

The opponents of the policy claim
that the new scheme is an underhand
move to avoid Britain's treaty obli-
gation, but Col. Amery points out that
the wishes of the Dominions were a
strong factor in influencing the Govern-
ment's decision. The question of
what and how the several constitu-
ents of the Empire may contrib-
ute to the Singapore and other
trade bases will certainly be discussed
at the forthcoming imperial con-
ference.

Million Dollar Bank Structure

Announcement has been made that
a banking syndicate of Cleveland,
Ohio, has planned to erect a 15-story
building in the downtown section of
Toronto. The structure will cost \$1-
400,000, and the ground floor will be
occupied by a bank while the upper
sections will contain clubs, banking in-
terests, etc.

A fine dog, which belonged to
Nurse Edith Cavell at the time of
her execution, died recently in Brus-
sels. Its body has been brought to
London with other stuffed "notable
animals" in the Zoological Department
of the British Museum.

A strong white fibre, of greatest im-
portance to textile industries, is now
obtainable from the beans of pine
apples.

States. 205 by France and 49 by
Italy.

This Little Earth

Our Planet Appears to be Insignificant
In Comparison to Other Worlds

Professor Albert A. Michelson, of
the University of Chicago, has been
applying his yardstick "to the stars
again. He announces that Antares,
of the constellation of Scorpio, has a
diameter of 120,000,000 miles. It was
Professor Michelson who brought the
star Betelgeuse off the astronomer's
charts and into the focus of
public attention when he computed its
diameter at 200,000,000 miles.

The astronomer never seems to
discover anything that can add to our
local planetary pride. Each new an-
nouncement of theirs gives added
strength to man's awareness that his
lot was cast in one of the most obscure
and inconspicuous members of the uni-
verse, on a ball that measures 7,927
miles through at the equator.

So far as these figures mean any-
thing to us it may be supposed that
if the earth were hammered flat as
you might hammer "a buckshot," it
would look about as large against the
surface of Antares as the buckshot
would if you plastered it on the side
of the United States Shipping
Board's Leviathan.

The sun quite evidently is begin-
ning to sink over the individual con-
parisons that the inhabitants of this
crubby little planet are drawing be-
tween him and the really big stars.

His warmth for the earth, another
astronomer informs us, has recently
cooled, as much as 3 or 4 percent,
producing a possibility of summer
frosts.

If the astronomers persist in their
propaganda for the remoter stellar
distances the morale of our own mi-
nute solar system may be seriously
impaired.—New York Herald.

The deposits of nickel near Sudbury,
Ont., were discovered in 1855 by Mr.
McCord, while looking for iron ore
for the Canadian Pacific Railway,
then in course of construction.

Doesn't hurt a bit! Drop a little
"Freestone" on an itching corn, instantly
that corn stops hurting, then show
you lit it right off with Freestone!

Your druggist gives a tin bottle of
"Freestone" for a few cents sufficient
to remove every hard corn, soft corn,
corn between the toes, and the cal-
luses, without soreness or irritation.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children.

Foods are specially prepared for babies. A baby's medicine
is even more essential for Baby. Remedies primarily prepared
for grown-ups are not interchangeable. It was the need of
a remedy for the common ailments of Infants and Children
that brought Castoria before the public after years of research,
and no claim has been made for it that its use for over 30
years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric,
Drops and Soothing Syrup. It is pleasant. It contains
neither Opium, Morphine nor other narcotic substance. Its
age is its guarantee. For more than thirty years it has
been in constant use for the relief of Constipation, Flatulency,
Wind Colic and Diarrhoea; allaying Feverishness arising
therefrom, and by regulating the Stomach and Bowels, aiding
the assimilation of Food, giving healthy and natural sleep.
The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

THE CASTORIA COMPANY, NEW YORK CITY

Colds Stopped In Ten Minutes

There is a new remedy that is very pleasant—it fills the nose, throat and lungs with a healing balsam from the pine woods, and utilizes that marvelous antiseptic of the Blue Gum Tree of Australia.

The remedy is "CATARRHOZONE"—and you can't find its equal for colds, coughs or catarrh. Composed of medicinal pine essence—a remedy of nature, that's what CATARRHOZONE is, and you'll find it mighty quick to act and certain to stop your cold.

Don't dope your stomach with cough mixtures—use CATARRHOZONE, which is scientific and certain. It will act quickly. Two months' treatment guaranteed, costs \$1.00; small (trial) size 50c. Sold in drug stores everywhere. By mail from The Catarrhozone Co., Montreal.

WORLD HAPPENINGS BRIEFLY TOLD

Construction of a provincial highway linking Yorkton and Canora will be commenced this summer.

The Winnipeg City Council voted down, 11 to 6, a motion to introduce daylight saving there.

Dr. F. D. Baxting, of Toronto, discoverer of insulin, received the honorary degree of LL.D. at Queen's University, May 9th.

The British Sea Trade Department is about to concentrate its efforts on the Canadian Pacific Coast and is sending a commissioner to Vancouver.

The Roman Catholic Church at Boston, England, claims the youngest organist in the world. He is Norbert Rouse, aged 10. He has been studying the organ only three years.

Sergt. Bury, Lebourget, France, has broken the world's aeroplane altitude record for a machine carrying 550 pounds cargo. It reached an altitude of 8,250 meters.

Dr. Hendrik Loez, the Dutch physician has officially accepted membership on the commission of intellectual co-operation of the League of Nations. He will replace Prof. Albert Einstein, who resigned some time ago.

Surveys of flood damage, with the waters receding, show that farmers and the railways are the chief sufferers from the rush down the streams of Saskatchewan and Manitoba through the tributaries of the Red and Assiniboine. Some 26,000 acres cannot be seeded this year, through lands being flooded.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms, can take this preparation without a quinquina of the stomach, and it will find it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

Will Visit Japan

The Canadian Manufacturers' Association has received an invitation to send a delegation of business men to Japan in the fall to see if some plan can be worked out for broadening of trade between the two countries. In view of that, plans are under way to have a representative body of Canadian manufacturers visit Japan in September.

MRS. ERNEST MORRIS

London, Ont.—Dr. Pierce's Favorite Prescription was so beneficial to me that I feel it my duty to send this statement for publication, so that it may be of help to other young mothers. During my last expectant period I felt just miserable, nauseated so that I could not retain my food, my back ached and I just seemed to ache and pain all over. Doctor Pierce's Favorite Prescription put me in perfect physical condition. I was able to eat my meals without that awful sick feeling and to keep well and strong right up to the last. My baby seemed to be healthy, too—was as strong and healthy as a baby could be. I think so much of Dr. Pierce's Favorite Prescription as an aid to nature in motherhood that I would not go through expectant period again. —Mrs. Ernest Morris, 3 Webb St.

Go to your neighborhood drug store and obtain this famous Dr. Pierce's Favorite Prescription in tablets or liquid, or send to Dr. Pierce's Laboratory, Little Rock, Ark., for trial size tablets.

Canadian Mothers Have Healthy Children

WHY? READ THIS!

London, Ont.—Dr. Pierce's Favorite Prescription was so beneficial to me that I feel it my duty to send this statement for publication, so that it may be of help to other young mothers. During my last expectant period I felt just miserable, nauseated so that I could not retain my food, my back ached and I just seemed to ache and pain all over. Doctor Pierce's Favorite Prescription put me in perfect physical condition. I was able to eat my meals without that awful sick feeling and to keep well and strong right up to the last. Supplies Microbes to Scientists

Doctor in England Cares for 1,500 Different Varieties

The largest collection of microbes in the world is housed in the Lister Institute, Chelsea, Bridge, where Dr. Sir John Brooks, nurses them with the care of a mother for her children. He has 1,500 different varieties growing in little glass tubes. They are sent all over the world to scientific investigators, and during the past year 300 new species have been added to the collection.

To one species, the bacillus tularum, so dangerous that its culture had to be discontinued—the curator, Dr. Brooks, with his assistant, Miss M. Rhodes, and Dr. Schultz all fell victims recently. The disease is unknown in this country, but in the United States all laboratory workers who tried to cultivate the microbe suffered from the disease of tularaemia, which is very protracted, but rarely fatal to man. It is a form of blood poisoning, due to multiplication of the tularum microbe in the blood.

NERVOUS TORTURES

Irritation by Day and Sleeplessness at Night the Result

There is no torture more intolerable than nervousness. The sufferer starts at every noise, is shaky and depressed. The least thing produces a feeling of irritation, and nights are sleepless. Often the patient is completely exhausted condition, the patient is unable to sit or lie still. The nerves are in this jaded condition, because they are being starved by poor, watery blood and to restore them to a normal condition of blood must be made rich, red and pure. For this purpose no other medicine can equal Dr. Williams' Pink Pills. They act directly upon the blood; they bring to it the elements necessary to enrich and purify it, thus bringing new health and strength to run-down, nerve-worn people. There is no doubt about this; thousands have testified to the blood-improving, nerve-restoring qualities of these pills, among these is Mrs. Anthony Caldwell, Melrose, N.S., who says: "I was badly run down and had a nervousness in a terrible condition. I would start at the least sound and often faint away. I could not sleep at night, and only those who have been in similar condition can tell me I suffered. At my mother's request I began taking Dr. Williams' Pink Pills. The blood must be improved for several months I am surprised at my present condition of good health. My nerves are as strong as ever. I can sleep well and eat well, and have no more fainting spells. I can only say that I am glad to get these pills through any medicine dealer or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont."

Double Freight On Weed Seed

Where the Farmer Loses at Every Point of the Game

During the winter, it is claimed, Alberta farmers brought in from Ft. William nearly sixteen million pounds of screenings, say 230 carloads, to use as feed for stock. There could hardly be a more striking illustration of the loss that is involved in shipping uncleaned grain out of the province and bringing back the refuse from the distant elevators. It is a safe estimate that as many carloads of screenings were shipped from Alberta to Ft. William—mixed with the marketable grain—as were imported from that point. The farmer paid for the eastward haul of this feed stuff clear across the prairie in the dockage that was charged against him because his grain was not cleaned. He paid for the return haul when he later on brought back a carload of screenings from his own or some other farmer's grain, and he paid for the screenings a price sufficient to cover the cost of cleaning the grain. That is to say: the farmer first gave away the weed seed and inferior kernels in the grain that he delivered to the local elevator, paid the railways to haul them to Ft. William and back again, and paid the terminal elevators for them. That looks like losing money at about every possible point of the game. If Alberta grain were cleaned in Alberta the farmers of the province would secure the refuse at the cost of the elevator charges, and would be in pocket the freight charges to Ft. William and back. Incidentally, we need in that case, instead of shipping them abroad and importing carloads of screenings, to use the weed seed and inferior kernels from Saskatchewan and Manitoba—Edmonton Bulletin.

The Cautious Scot

A Highland ferryman, whose boat, laden with passengers, was caught in a sudden squall the other day when only halfway across the loch, turned to the terminal elevators for them. That looks like losing money at about every possible point of the game. If Alberta grain were cleaned in Alberta the farmers of the province would secure the refuse at the cost of the elevator charges, and would be in pocket the freight charges to Ft. William and back. Incidentally, we need in that case, instead of shipping them abroad and importing carloads of screenings, to use the weed seed and inferior kernels from Saskatchewan and Manitoba—Edmonton Bulletin.

She Received Great Benefit From Them

THAT'S WHY NOVA SCOTIA LADY RECOMMENDS DODD'S KIDNEY PILLS

Mrs. Leo Gaudet Found Relief and Tells All Sufferers to Use Dodd's Kidney Pills. —The value of Dodd's Kidney Pills as a household remedy is shown by the following statement of Mrs. Leo Gaudet, a well-known resident here. "I suffered with kidney trouble," Mrs. Gaudet states, "I took Dodd's Kidney Pills and have received great benefit from them. I think they are very good."

What Mrs. Gaudet states is all that has ever been claimed for Dodd's Kidney Pills—that they are good for sick kidneys. The road to good health lies through the kidneys. If they are weak and out of order the impurities are strained out of the blood. If they are weak and out of order the impurities stay in the blood and disease is the sure result. Dodd's Kidney Pills keep the kidneys in good condition to do their work of cleansing and purifying the blood.

Ask your neighbors if Dodd's Kidney Pills do not make sound, healthy kidneys.

It is never too early to begin looking on the bright side of life. Do it now.

Worms cause fretfulness and rob the infant of sleep, the greatest nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Frogs that back like dogs were discovered in the wilds of Santo Domingo by an exploration party.

BE YOUR OWN VET.

Save veterinary bills on your stock by using MINARD'S Best for Cuts, Bruises, Strains, Saddle Sores, Disinfectant, etc.

It looks bad, and we diana knew what might come over us. So we'll just take your two-pence now."

Lady: "Well, do you want a meal badly enough to work for it?"

Tramp: "I'm just hungry, mum, not desperate." —Pearson's Weekly.

Don't Neglect Your Skin

Ladies—A few days' treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty treatments in the world.

Small Pill—Small Dose—Small Price

Interesting Stamp Collection

King George Has Maintained Hobby For Many Years

The stamp collectors of the world are going to hold a marvelous exhibition at London, England, within a few months.

The stamp collectors of England are hoping that King George's collection of stamps will be exhibited.

It is commonly known that King George has one of the most interesting collections of postage stamps in the world. The King started to collect stamps when he was a middy in the navy, and he has maintained this hobby ever since he ascended the throne.

An Oil that is Famous—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of this famous compound. From here its good name was spread to Central and South America, the West Indies, Australia, and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Penalties for Defeat

How Failures Have Been Rewarded In Some Countries

Two hundred years ago the British executed Admiral Byng, of the same stock as our Governor-General, for letting beaten in a naval fight. We have got more sportsman-like ideas since then. For instance, Jefferson, in his first Jutland dispatch, seemed to consider that who won the battle was a mere detail, and that the great thing was the fine fight everyone had put up, especially the boy Cornwall. They do things differently. Bulgaria has just sentenced ex-Cabinet Ministers to life imprisonment for having drawn her into the world-war in 1916. Six generals also got prison and fines. This is in line with Greece, which recently executed the official responsible for letting the official responsible for letting the expense difference about pensions for ex-Cabinet Ministers.

Japs Desire Progress

By Peaceful Means

Militarism Dying Out Says Russian

Japanese militarism is rapidly dying out, having reached its peak of attainment during the European war, in the opinion of V. G. Antonov, unofficial representative of the Russian Soviet Government.

Mr. Antonov declares that he has been in Japan and the United States would have been inevitable had it not been for the Washington conference, and that agreements reached at that meeting were tantamount to a crushing of the militaristic element in Japan.

The rise of the agrarian movement, which has been rapidly accomplished during the past few years in Japan, is interpreted by Mr. Antonov as an indication of the changing social structure of Japan and the overthrow of the imperialistic faction by the masses of the population which desire progress by peaceful means.

Mr. Antonov believes Japan must in future lean to a greater extent on Russia, Russia being a vast potential market for Japan and easily accessible, while the people of Russia are half Asiatic and therefore better able to assimilate with Japanese than the people of the western continents.

Minard's Liniment for Distemper

Dryden Sulphate Plant

Extensions to the plant of the Dryden Paper Company have been completed, including power development at Walnwright Falls. The capacity of the plant will now be 75 tons of sulphate pulp a day. Two-thirds of the production will go into wrapping paper and sulphate building paper.

Business Policy

Farmer—If you see have reduced the fee for spending from \$10 to 85. Country Judge—Yes, the buses were beginning to slow up—Boston Transcript.

England has a travelling tailor's shop, something like the auto grocery truck, which goes through the country and stops at the villages on market days and measures customers for suits to be made and delivered later.

Household Hints

Valuable Recipes For the Busy Housewife

Excellent Lemon Mince-meat

1/2 cup shortening, 2 large lemons, 1 teaspoon powdered cinnamon, 4 apples.

1 teaspoon powdered ginger, 2 cups currants.

1 teaspoon salt, 1/2 cup chopped nut meats.

1/2 pound chopped and candied lemon peel.

1/2 teaspoon powdered all-spice.

1/2 teaspoon grated nutmeg, 1 1/2 cups sugar.

1/2 teaspoon powdered cloves.

1/2 cup Sun-Maid seeded raisins.

1/2 cup Sun-Maid seeded raisins.

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of catarrh or influenza caused by colds. We do not recommend it for any other ailment.

HALL'S CATARRH MEDICINE is a liquid, taken internally, and acts through the blood upon the mucous surfaces of the throat, thus reducing the inflammation and restoring normal conditions. Circulars free. A. C. CHERRY & CO., Toledo, Ohio.

World's Richest Man

Financiers Say Ford Has Replaced John D. Rockefeller.

New York financiers claim that Henry Ford is the richest man in the world, following publication of the Ford Motor Company's statement of its financial condition as of February 28, 1922, showing assets of \$536,351,939. Actual cash on hand was \$169,606,687.

Last February 28, the statement shows the profits and loss "surplus" was \$389,777,523. Wall Street estimated net profits approximately \$119,000,000, equivalent to more than \$690 a share on the 178,465 shares of \$100 par value capital stock outstanding, which Henry Ford and his son Edsel own outright. Wall Street further estimated that the Ford fortune, totaling something between \$600,000,000 and \$750,000,000.

Ford is said to replace John D. Rockefeller as the world's wealth leader, the Rockefeller fortune being depleted to \$200,000,000 by the oil man's gifts, estimated in round numbers at \$1,000,000,000.

STUDEBAKER SALES SHOW

67.6 PER CENT INCREASE

According to a report of the Studebaker Corporation, sales of Studebaker cars for the first three months of 1923 were 28,271, as against 22,861 cars in the same period of 1922, an increase of 67.6 per cent.

These figures indicate that Studebaker bids fair to establish another sales record in 1923. The steady increase in Studebaker sales is one of the shining stars of the automobile world. 1921 (a year in which automobile sales as a whole increased 43 per cent) saw Studebaker sales hit the 20 per cent mark. This record was followed by a 65 per cent increase in 1922 sales, which amounted 118,249 cars valued at \$120,000,000.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., May 17, 1923

OUR SENTIMENTS, TOO!

Once again we are obliged to endorse the sentiments of the Pincher Creek Echo in the following editorial appearing in last week's issue:

"A general activity will soon be under way on the campaign for the coming plebiscite on the Liquor question, and if this work is carried on as has been done previously the publishers are in for a busy time of it."

"In days gone by it has often been the case that publishers have only allowed space to the side of the question favored by themselves."

"It is questionable if this attitude is correct or sane. The Government has decreed that the people shall decide in what way liquor shall be handled or disposed of and that there will be two sides to the question is a foregone conclusion. Either side then should be sold space in the press for the presentation of their views, just the same as a grocer or other business man sells sugar or wares to liquor man or prohibitionist alike."

The sale of space, however, should not in any way be misconstrued as having anything to do with the editorial columns. The subject published in the space will carry the message from the advertiser to the reader direct without having any of the bias of the editor's pen in which it is inserted. Prices for space should be fair alike to both sides of the question."

HIGHEST PEAK IN CANADIAN ROCKIES

Mount Robson National Park holds for the tourist and explorer new wonderful lands in a great unspoiled Alpine Kingdom, where nature and beauty vie with each other. It is a country abounding in big things; majestic peaks, deep canyons and waterfalls. In fact, it is doubtful if anywhere in an equal area such magnificent scenery and wonder features can be found. Camps are located in Mount Robson Park for accommodation of tourists, where saddle horses and pack horses are available. An observation platform has been constructed by the Canadian National Railway, at Mount Robson station, where all trains stop for a few minutes to afford travellers the opportunity of viewing this vast and amazing territory. Mount Robson, the highest peak in the Canadian Rockies, is plainly seen from the train. The "Continental Limited" en route to the Pacific Coast traverses this new playground, and for many miles follows the North Thompson and Fraser Rivers, remarkable in beauty and interesting in history. Mountain observation cars composed largely of glass, are attached to the "Continental Limited." This new innovation on the Mountain division of Canadian National Railways affords unobstructed view of the scenery on both sides of the track and affords protection from sun or rain.

A GRAVEYARD

Everyone should have a graveyard of his own. In it, he should bury all his mean thoughts, his hatred, his animosities and evil inspirations; and bury them deep, so that there can be no resurrection. If you hear of a bit of malicious gossip, bury it deep. If you have been nursing a feeling of hatred toward somebody, then bury it. And when you have finally filled your graveyard with the worst that was in you, you will find the world—and all that goes to make it, a much better place than ever before.

THE NEW MOTOR HIGHWAY

The building of the new motor highway through the Canadian Rockies and the linking up of the great 6,000 miles system known as the "Grand Circle Tour," adds one more thrilling chapter to the romance of modern engineering. The Banff-Windermere road is not only the first motor road across the Central Rockies, but the connecting link in what is probably the most spectacular motor route in the world. For the past two years motorists in both the States and Canada have awaited the completion of this final arc. Now the great circle is complete, and after June 20 motorists may travel across the Rockies from Banff via the Vermilion pass to the Windermere valley, passing through Banff and Kootenai National Parks and visiting famous resorts of Banff, Lake Louise, the Valley of the Ten Peaks and McInnis Lake. Direct connections are made by the Columbia Valley road via Invermere, Cranbrook and Kelowna, B. C., with Spokane, Seattle, Wash., Vancouver and Victoria, B. C., and Portland, Ore., and the Pacific Coast down to San Francisco and Los Angeles, Cal. The return trip of the tour is made via the Grand Canyon, Salt Lake City, Helena, Montana; the United States Yellowstone and Glacier National Parks to Park, Montana; and over the International boundary via Coombs, Alta., touching Waterton Lakes National Park if desired, thence to Macleod or Lethbridge and Calgary and back to Banff.

Already tourists are in communication with Mr. J. F. Spalding, chief publicity commissioner, of Fernie, who is also representing the associated boards of trade and automobile associations of the Crows' Nest Pass. All prospects are that thousands of tourists will this season avail themselves of the Banff-Windermere circle tour, taking in the trip through this district in connection.

The local board of trade are active and their program for the season is almost complete. Signs are being posted, directing to points of interest through this part of The Pass, which will include the Sulphur Springs, Turtle, Tent, Coleman, Scentry, Livestock and Grassy Mountains; also the new sight-seeing tour from Blairmore to Cougar Valley, Grassy Mountain and back through Little and Paul. Also mile posts are being erected east and west of Blairmore.

Mr. J. F. Spalding has been engaged by the local Board of Trade for the purpose of compiling publicity matter and will be a caller upon local folks tomorrow. The time at Mr. Spalding's disposal is very limited, and it is urged that you will lend all the prompt assistance necessary, remembering that Mr. Spalding's services are given gratis for our benefit.

This district has much to benefit through the opening up of the new Banff-Windermere circle tour. Last season hundreds of tourist parties passed through this district from east to States points. This season there will be thousands who will avail of the tour through this part of Western Canada from the States and the benefit that will result is beyond estimation. Already parties have arrived from points in the eastern States and Canada, the first Ontario party camping in Blairmore on Friday night last. This party were delighted to find that provision was being made here for the accommodation of tourists in the establishment of a permanent and up-to-date camp site.

The annual convention of the Canadian Public Health Association, of which Dr. W. C. Laidlaw, deputy minister of health for Alberta, is president, will be held at the University, Edmonton, on June 12, 13 and 14 next. Delegates from various parts of the province and of Canada will be in attendance. The association includes also the Canadian Tuberculosis association, the Canadian association for combating venereal diseases, the association of mental hygienists, and child welfare. The meetings of the convention will be open to the general public.

HARRY BERRY ACCIDENTALLY KILLED IN SAW-MILL

All the old timers and friends of Mr. and Mrs. Sam Berry were deeply grieved on Saturday afternoon, when they learned that their son, Harry Buffington Berry, had been accidentally killed in a sawmill in Lumberton, B. C.

This was the only word that was received until about 4.30 p.m., on Saturday, when a phone message from Cranbrook gave the information that the accident had occurred at 6.30 Friday a.m., and that the body was being sent to the home of his parents, and was accompanied by his widow, his two little children, and a couple of friends from Macleod, who had gone to Lumberton when the sad intelligence was received.

The cause of the accident will never be known, but the facts are that Mr. Berry, who was on night work at the mill and it is thought that just before he left at 6.30 he must have undertaken to release the chute of sawdust, and possibly touched the key which released the entire wall of sawdust, and as he was alone it was not noticed until noon, the mill hands thinking he had gone home and his wife thinking he had stayed on at the mill, going on day work, as it had been expected he would soon. On the inquiry of Mrs. Berry at noon when her husband failed to come to lunch, at once created a search, and the closing of the mill. The pond was straggled at first, and then the discovery of the body was made. Mr. Berry having been smothered under seven feet of sawdust.

Mr. Berry was born on the Halifax Ranch in 1891 and was the only child of Mr. and Mrs. Sam Berry. After his school days were finished he was assistant book-keeper for the 41-Meat Market, and then went into the Mitchell Drug Store, where he remained until after the death of Mr. Mitchell. He was forced on account of his health to give up the drug business and for a time lived in Blairmore. He then returned for two years to Pincher Creek and was in the livestock business, going later to Coleman in partnership with J. Chaput. Fire destroyed the business there and Mr. Berry later went into the lumber business.

He is survived by his widow, his little six-year-old daughter, Mollie, and little son, Hughie, and his parents.

The funeral was held on Sunday afternoon at 4.30 from the residence of his parents to the English Church

cemetery, the Rev. A. E. Lane-Samson officiating.

Deepest sympathy is extended to the bereaved family, from the people of Lumberton and from many friends in Pincher Creek and district.—Pincher Creek Echo.

The first two or three weeks the editor of The Coleman Journal has been "talking at random." With the approach of warmer weather an improvement may be expected.

The special train conveying the McGill students, who are touring the west, visited The Pass on Saturday last, when visits were made to several of the larger Pass mines and other industries.

A hen's egg weighing a quarter of a pound was handed us this morning by P. Battel. It measures six and a half inches in circumference one way and eight and three-quarters the other.

DEPARTMENT OF MUNICIPAL AFFAIRS

Province of Alberta

TAX RECOVERY ACT, 1922

Notice is hereby given that a list of lands in Improvement Districts Nos. 71 and 101, against which proceedings have been begun under the Tax Recovery Act, 1922, appears in the Alberta Gazette, published on the 15th day of May, 1923, and until all arrears of taxes and costs are paid on or before the 14th day of October, 1923, a certificate of title will issue to the Department of Municipal Affairs in the right of the Province.

A copy of the said list may be seen in the Department of Municipal Affairs during office hours.

J. H. LAMB,
Deputy Minister, Department of Municipal Affairs.

Dated at Edmonton this 16th day of May, 1923.

GENERAL CHANGE

in

For further particulars apply to and Ticket Agent
J. E. PROCTOR,
District Passenger Agent,
CALGARY, ALBERTA

Light-Six Sedan—\$2225

Built for hard service

The Studebaker Light-Six Sedan is built for years of hard service—service over country roads, up-country trails, city streets or anywhere you wish to drive!

It is comfortable, economical of fuel, sturdy and long-lived. Freedom from repairs is proved by Studebaker's sales of repair parts, which in 1922 averaged only \$13 per car in operation.

Vibration, which is so destructive, particularly to closed cars, is practically eliminated in the Light-Six Sedan by the machining of the crankshaft and connecting rods on all surfaces—a feature of construction not to be found in any other car in Canada selling for less than \$3500.

Beautiful in design, mechanically right, luxurious and adequately equipped—that briefly describes the Studebaker Light-Six Sedan.

THIS IS A STUDEBAKER YEAR

Here and There

Seeding in Alberta was two weeks later this year than last.

A second party of Swiss immigrants recently arrived at St. John about the middle and are en route for the West, where they will engage in agriculture.

Twenty-two thousand immigrants to Canada from the United States were inspected on trains and highways crossing at the 38 points from Port Arthur to Kingston, B.C., during March of this year.

To date the port of Vancouver has shipped or booked 17,000,000 bushels of wheat to the Orient and South America. The railroads expect at least 2,500,000 additional bushels to be shipped this way in the near future.

The memory of the early missionaries of the Oblate Order will be perpetuated by the Canadian Pacific Railway, and several stations on the extensions of their lines, the Kipawa and Quinze will bear names of early members of that organization which did so much for the colonization of the country.

There are thirteen new paper making machines being installed in Canadian paper mills this year. When erected and running, these machines will consume more than 350,000 additional cords of wood a year. Canada is valued annually consuming and exporting more than 5,000,000 cords of pulpwood, representing the growth of a century or more on 125,000 acres of land.

A new service for motor tourists desiring to pass between the mainland and Vancouver Island has been inaugurated between Bellinham and Victoria. The Motor Princess, with a capacity for fifty automobiles and 250 passengers, flies twice daily between the ports. This boat is motor driven and the first of its kind to be operated on the Pacific side of the continent.

In 1922 Canada produced 2,418 tons of salt cake, valued at \$44,800, and 1,329 tons of Glauber salts valued at \$42,719, according to government figures. There are a number of immense deposits of Glauber salts in the province of Saskatchewan, which are at the present time only in the initial stages of development, but it is anticipated that the next few years will see a considerable increase in production.

The Canadian exhibit at the British Empire Exhibition, to be held in London from April 20th to October 31st, 1924, is to be financed, controlled and directed by the Federal Government. The estimated cost is \$1,000,000. The two Canadian railroads are planning exhibits on adjoining sites, each with a floor space of 10,000 feet. The cost of the Canadian Pacific exhibit is estimated at \$300,000.

The Canadian Pacific steamship "Empress of Russia," upon her last sailing, carried a shipment of Canadian furs for Japan. On board was reserved in the hold of the liner and the travellers were well packed in ice. On being taken ashore at Yokohama these furs will be gradually warmed until they are ready to be let loose, when they will be liberated on the streets of Japan by importers, with the idea of giving the Japanese a new industry in the production of furs.

The Canadian Pacific Telegraphs have announced the following reduced rates per word for cable messages to the following countries effective to-day:—Australia, 30 cents; Belgium, 25 cents; France, 22 cents; Germany, 25 cents; Great Britain and Ireland, 20 cents; Italy, 20 cents; Hungary, 33 cents; Italy, 26 cents; Spain, 38 cents; Switzerland, 27 cents. The 25 cent per word rate to Great Britain and Ireland is still in effect for special rush cables. Corresponding reductions have been made in the rates to other countries in Europe and beyond via Atlantic cables, and the new deferred rates will be one-half of the full rates quoted above except to Great Britain and Ireland, where the existing deferred rate of 9 cents per word is maintained.

BLAIRMORE GOLF CLUB

The first mixed foursome competition of the season was held yesterday July 11—Coleman net Bellevue. of 36 players.

The following is a list of the best scores.

1. Mrs. F. J. Smith and J. E. Gillis, 58-25-38.
2. Mrs. H. M. Bennett and G. Cruickshanks, 58-25-33.
3. Mrs. E. A. Harper and W. Bird, 55-22-33.
4. Miss R. Pearson and Dr. H. B. Hoar, 58-25-33.
5. Mrs. W. Bird and A. J. Kelly, 44-9-35.
6. Mrs. M. G. Rhynas and G. I. Stevens, 50-14-36.
7. Miss Marquis and M. G. Rhynas, 57-20-37.

The Blairmore pound is now in operation and during the week quite a number of animals found roaming at large have been gathered in and the owners obliged to pay for their release.

CROWS' NEST BASEBALL LEAGUE IS FORMED

At a meeting of representatives from Bellevue, Hillcrest, Coleman and Blairmore, held in the office of the C. N. P. Motors last Thursday evening, the Crows' Nest Baseball league was formed. The representatives were W. Bird, Blairmore; Tiny Thompson, Bellevue; F. Kroli, Hillcrest, and E. McDonald, Coleman.

The officers elected are as follows: President—L. L. Morgan, Blairmore. Vice-President—Dr. Key, Bellevue. Sec.-Treas.—E. A. Harper, Blairmore.

Rules governing the league were discussed and drawn up, and the matter of affiliating with the Alberta Amateur Baseball Association was considered. The residence date for the league was set at May 31st, and no player will be allowed to participate in any league game unless a resident prior to the above date.

The league schedule was also drawn up and is as follows:

- First Half
- June 4—Bellevue at Blairmore.
 - June 6—Coleman at Hillcrest.
 - June 8—Blairmore at Coleman.
 - June 11—Hillcrest at Bellevue.
 - June 13—Blairmore at Hillcrest.
 - June 15—Bellevue at Coleman.
 - June 18—Coleman at Blairmore.
 - June 20—Hillcrest at Coleman.
 - June 22—Blairmore at Bellevue.
 - June 25—Coleman at Bellevue.
 - June 27—Hillcrest at Blairmore.
 - June 29—Bellevue at Hillcrest.

- Second Half
- July 2—Hillcrest at Coleman.
 - July 4—Blairmore at Bellevue.
 - July 6—Coleman at Blairmore.
 - July 9—Bellevue at Hillcrest.
 - July 11—Coleman at Bellevue.
 - July 13—Hillcrest at Blairmore.
 - July 16—Blairmore at Coleman.
 - July 18—Bellevue at Blairmore.
 - July 20—Coleman at Hillcrest.
 - July 23—Blairmore at Hillcrest.
 - July 25—Bellevue at Coleman.
 - July 27—Hillcrest at Bellevue.

To decide the winner of the League the winners of the first and second half will play home-and-home games and if necessary a third game on neutral ground will be played.

A meeting of the local club was held in the C. N. P. Motors office last Friday night and matters regarding the league meeting were discussed. A permanent league representative was also appointed.

PROPOSE PRAYER FOR HARVEST

A deputation of business men to a recent meeting of the Presbytery of Calgary, asked for special prayer in the churches from now until harvest, that a bountiful harvest may be vouchsafed to relieve present distress. A committee from that meeting approached the Calgary Ministerial Association, who passed a resolution inviting all other Ministerial Associations in Western Canada to co-operate with them in encouraging prayer in houses and churches for spiritual and material blessings.

The seizure of so much moonshine lately is probably responsible for these dark days.

Prohibition simply means a means of making wealthy a bunch of individuals who could never earn a living by honest means. They gather and control funds that should be controlled and used by the government for the public's benefit.

When Archbishop Neil McNeil arrived from Toronto for a visit to the Pope at Rome he was presented with a check for more than ten thousand dollars by the Roman Catholics of his diocese.

Here and There

Each acre of corn grown in Ohio costs on an average 12.25 hours of labor.

Canada is now second on the list as to acquiring land, the per capita being \$100.00 per annum.

A new station is being built by the Canadian Pacific Railway at Fredericton at a cost of \$50,000.

Half a million Canadians look to the forests each day for their meals and lodging, and more than 100,000 Canadian women are engaged in converting forest products into one form or another.

The large party of Hebrideans who were brought to Canada on the Canadian Pacific Steamer "Metagama" and "Arloch" have gone to Red Deer, A. S., where they will form an agricultural colony.

Seven hundred farmers and farm laborers arrived in Canada recently on the Canadian Pacific Steamer "Montcalm." These colonists are proceeding to Ontario and western points where they will take up farm work.

The project of a ship canal across Scotland from the Clyde to the Firth of Forth was brought to the fore again at a recent meeting of the Mid-Scotland Ship Canal Association, and there is a possibility of something being started in this connection in the near future.

A single pair of potato bugs would, without check, increase to 60,000,000 in one season; the hop aphid, developing thirteen generations in a single year, would, if unchecked to the end of the twelfth generation, have multiplied to ten sextillions.

Canadian air pilots flew 294,449 miles carrying 4,133 passengers and 77,850 pounds of freight in 1922, according to a report of the Canadian Air Board. Saskatchewan air pilots led in the Dominion, carrying 3,022 passengers. Manitoba pilots carried 1,622 people, and British Columbia pilots 1,122.

A company has been formed in London to exploit sunken treasure in Navarino Bay, off the west coast of Greece. The promoters state that there is a matter of \$45,000,000 in bullion and other forms still at the bottom of the Bay, where it was sunk with the united fleets of Spain and Turkey by the United British, French and Russian fleets in 1827.

Last summer 4,000 forest fires cleared away at least ten times as many trees as were cut down for lumber, pulp and paper, and all other industrial purposes. A very large percentage of the fires were caused by careless campers and sportsmen who "thought it would die out" or cut away a lighted match or cigarette end.

Improvement of camping facilities at Banff for automobile tourists is now being made. The Mount Rundle camp site being improved and enlarged, and will be equipped with all modern appliances. It is expected that as a result of the expansion of the Banff-Windermere road this year, the tourist traffic through Banff will be the heaviest ever recorded.

At the annual meeting of the Canadian Pacific Railway, President E. W. Beatty pointed out that prospects for the immigration into Canada of the class of colonist urgently needed to develop the country's natural resources were much brighter than they had been in the past two or three years, and an increased traffic from Great Britain and Northern Europe was indicated by the largely increased western movement on the company's ships during the past four months of this year.

A DOG'S LIFE

A Hollander, addressing his dog, said: "You was only a dog but I wish I was you. When you go mit your bed in you shust turn round three times and lay down. Ven I go mit my bed in I haf to lock up the place and vind up the clock and put the case out, and ondress myself. Den my for she vakes up and scolds and de baby vakes up and cries. Den I haf to lock him mit the house round, den maybe ven I get myself to bed it is time to get up again.

"Ven you get up you shust stretch yourself; dig your neck a leedle and you vas up. I haf to light de fire, put on de kiddie, scrap some mit my life already and git myself some breakfast. You play around all day and half plenty of fun. I haf to work all day and haf plenty of trouble. And ven you die you vas dead, but ven I die I haf to go to hell yet."

A public meeting will be held in the Orpheum theatre on Sunday evening, May 27th, at 7.30, to be addressed by P. M. Christophers, M.P.P., on the subject of what happened in the recent sessions of the Alberta legislature. An invitation is extended to all to attend this meeting.

THE PASS FIFTEEN YEARS AGO

(The Frank Paper, 1908.)
October 23—Monday's election resulted in John Herron securing a safe majority. Harrington, the Socialist candidate, carried the largest vote in The Pass, having a plurality of thirteen. Mr. Herron led in Macleod by about 175.

That much of the hitherto unknown country through which the proposed Hudson Bay railway will traverse its course north and east is capable of sustaining a farming population is the opinion of William McElpine, of the geological survey department.

Angus Ruis, senior, one of the old time residents of Frank, passed away on Tuesday morning. Three sons and five daughters survive him. They are Mrs. Wrigley, Mrs. James Boyd, Mr. W. M. Alexander and Mrs. A. N. Fraser, and Angus, John and James Ruis. Mr. Ruis was sixty-nine years of age.

A sad accident occurred in the mine of the West Canadian Collieries at Bellevue on Saturday, in which Roci Marapodi, one of the best known miners in the district lost his life through a fall of coal. Internment took place in Blairmore cemetery on Monday.

The San Francisco Opera Company said to be an exceptionally strong organization, will appear at Coleman opera house on November the 3rd.

A. O. Adams, of the Carbon Hill Coal Co., was in town this week and exhibited some samples of galena ore which he stated were found on the eastern slope of the man's range. The ore was exceedingly rich.

November 5—The new institutional church at Bellevue was formally dedicated on Sunday last by Rev. T. C. Buchanan of Lethbridge. Mr. Buchanan is president of the Alberta Methodist conference. The choir under the able leadership of Mrs. J. H. Ashdown, rendered several choruses and an orchestra of eight pieces played a number of selections. Rev. T. M. Murray assisted at the service. The church was built at a cost of \$1358.00.

November 12—The Bellevue miners' union this week purchased two lots in the Connolly addition, upon which they will build a hall and club room.

Philip Hart, formerly of Frank, but now operating a meat business at Bellevue, met with a most distressing accident Sunday night, which nearly cost him his life. Coyotes had been bothering greatly for some nights and he went out about midnight on this occasion with intention to kill some of them. As usual, the coyotes were too smart to get caught within gun range and he gave up the job and went back to the house. As he was entering he stumbled over a block of wood and in some manner discharged the gun. The charge of shot tore off nearly all the flesh from one side of his face.

The trial of Mar Hong, who murdered his brother, Mar Ling, in their laundry at Blairmore on July 31st, was held at Macleod on Tuesday and Wednesday. Hong was convicted and sentenced to be hanged on January the 6th next. None of the facts relating to the cause of murder came out in the trial, as the crown confined itself to the establishing of the murder, while the defense offered no testimony. Attorney J. W. McDonald depened entirely upon a very clever plea to the jury on the score of insanity. The case was tried by Mr. Justice Stuart and Mr. W. M. Campbell prosecuted.

The Alberta normal school has been formally opened at Calgary by Premier Rutherford and Minister of Public Works Cushing.

The murder trial of Angelo Mont, who killed the Castana brothers at Lile on September 25th, commenced this morning at Macleod.

The libel suit against Dan McGillivray, of the Calgary News, for his now famous attack on Bob Edwards,

Sergt. Scott and family have moved to their new home in Lethbridge.

Mrs. (Dr.) Olivier and children left yesterday for the Pacific coast, where they will reside for the summer months.

A lot of women are two-faced. There is one they wear at 8 o'clock in the evening and the one they wear at night in the morning.

Rev. W. T. Young left last night for Clearholm, where the Macleod church meeting of the Methodist district is being held. He will return to town tomorrow.

Of the forty school inspectors in the province, fourteen have received notice of dismissal. J. H. Hutchinson, of this district, is, we are pleased to learn, one of those retained.

Mrs. Key was visiting some friends and left the following note for her nearest neighbor: "Dear Mrs. Garrison: Would you please put out a little food for the cat I have been feeding this winter? It will eat almost anything, but do not put yourself out."

George W. Packwood and his son George A. Packwood, whose residence at Mount Royal, Calgary, was found to contain a large still for the manufacture of whiskey, were sought to the extent of \$1568.88 when convicted under the Inland Revenue Act on Wednesday. They still face charges under the Alberta Liquor Act. Packwoods voted for prohibition and promise to do so again.

This should somewhat curtail the trade in still whiskey. The mast found in a still near Macleod contained two full-grown beautiful gophers and several mice. A large number of other articles, mostly nameless, were also contained in the mixture. This still had a market for about twenty gallons a day and is perhaps somewhat responsible for some of the peculiar blazes to be noticed through The Pass.

An accident occurred at Greenhill mine last evening, resulting in the death of a Polish miner named Zimka. Zimka was just in the act of coming off shift at 4 o'clock when in some unaccountable manner he was crushed by a trip of cars coming out of the mine. Medical aid was summoned and the man was moved to hospital, where he died at 9 o'clock last night. Zimka is survived by a wife and several children. Internment takes place tomorrow at the Catholic cemetery. Rev. Father Cosman officiating. Deceased moved to Blairmore from Bankhead but recently.

NOTICE OF SITTING OF COURT OF REVISION

NOTICE IS HEREBY GIVEN that the Assessment Roll for the Blairmore School District No. 628, of the Province of Alberta, has been completed and the same may be examined at the Secretary's office and the Board of Trustees will sit at a Court of Revision to hear assessment appeals at the Schoolhouse, on the 9th day of June, 1923, and no person who does not appear at the said time and place will be entitled to appeal from the decision of the said Court of Revision to the District Court.

Dated at Blairmore, Alberta, this Fifteenth day of May, 1923.

J. R. GRESHAM, Secretary.

NOTICE

Municipal District of Castle River No. 40.

NOTICE IS HEREBY GIVEN that a list of land against which proceedings have been begun under the Tax Recovery Act, 1922, appears in the Alberta Gazette published on the 14th day of May, 1923, and unless all arrears of taxes and costs are paid on or before the 15th day of October, 1923, a certificate of title will issue to the Municipal District in respect thereof. A list of said lands may be seen at the office of the Secretary-Treasurer.

Dated at Beaver Mines this 14th day of May, 1923.

B. C. SPELMAN, Secretary-Treasurer.

of the Eye Opener, was held during the week, resulting in a verdict of guilty. A fine of \$100 was imposed. The judge and jury both scored Edwards for the filthy nature of his publication.

With the capture and cleaning up of a still of great proportions at Calgary, the source of The Pass liquor supply has perhaps been cut off. Some time ago we suggested that a booze gate should be established between The Pass and Calgary, but it seems the government felt their police officers might have a better time were the gate to be maintained west of Coleman. And now, it would be very interesting to know what the gate squad west of Coleman has accomplished beyond the formality of searching cars and respectable citizens. How many actual captures of liquor have been made as a result? Surely not enough to warrant the continuance of the so-called booze gate.

There is still a question as to whether the provincial government has the right to block a federal highway in the enforcement of provincial laws. The blockade west of Coleman is not a paying venture for the provincial government and is not accomplishing the purpose for which it is intended. Instead, it will prove a very unpleasant menace to a travelling tourist public throughout the summer months. One can scarcely realize the ill effects of a search of the car and effects of parties who are absolutely innocent of offence against any law under the sun; still that is what is happening, and it is ridiculous to think that a barrier is necessary to keep whiskey out of the Crow's Nest Pass, when no such chain exists anywhere along the whole three thousand miles of unfortified imaginary line dividing Canada and the United States to help enforce their myriads of national and international laws.

Mrs. Burr, of Detroit, who has spent a couple of weeks here with her father, Capt. W. A. Beebe, leaves tonight for Regina, where she will visit with her brother and sister, Mr. and Mrs. Frank A. Beebe. She will then return to her home in Detroit. Capt. Beebe will likely accompany his daughter as far as Regina.

MODERN GOLF

By W. J. Frank Thompson

NOTED CANADIAN GOLFERS

GOLF COURSEISM

The time element in golf has more to do with its fascination and enigmatic character than any other factor. Substitute the moving ball for the stationary one (with the appropriate changes in the club) and you have, by reducing the time element solved the mystery of golf. Several seasons elapse between the address and the despatch of the ball in which a thousand and one thoughts may occur. If there were no time to reflect in golf during the execution of the stroke, but it took more or less automatically and unconsciously, as is the case in tennis or baseball, one would hear less about the psychology of the game. Golf is primarily a game of propulsion or muscular effort, or as physiologists would say, it has to do principally with the motor centres, whereas reflection has to do with what is called the ideational centres of the brain.

Now when we reflect how a stroke is to be made at a certain time that we make it, there is a certain opposition between the motor and ideational centres resulting in more or less confusion. In playing golf the problem is to allow the motor centres to work while inhibiting all other centres. When we play our best game of golf we just play without thinking much, how it is done, and numerous professionals have testified that while driving the ball their minds were more or less blank. As one said: "I didn't think at all, I just swoop her away!"

Somewhat of this opposition is seen in the commonplace experience of thinking how one steps when walking down stairs. It slows up the pace and sometimes causes one to stumble. In the language of Coue we substitute the words conscious and unconscious.

All our moral, social and intellectual concepts are the result of the conscious, while the action of the vital organs, as well as digestion, etc., are the work of the unconscious. The unconscious never makes a mistake in its work. Although it is the engineer, it is dependent on the conscious for its material. If the conscious thinks of a "bunker," the unconscious takes it at its word and realizes the suggestion. How this is done Coue does not say, any more than the physiologist can explain how his motor and ideational centres work. Coue is not interested in why or how suggestion works, but more in the fact that it does. His contribution has been in eliminating the element of effort. Whenever effort is present there is always a certain opposition going on. The efficacy of Coue's rosary is to keep prominently before us whatever is desired.

The golfer has the same problem. He must keep before him the desired end which is the ball. This alone should occupy his attention. Attention from its very nature tends to fluctuate. It will be difficult enough to keep the eye on the ball without deliberately making it more so by thinking of bunkers which may or may not enter into the game.

When one looks at the flag and then at the bunker, the attention fluctuates from flag to bunker, resulting in a certain confusion, and as Coue says, the unconscious accepts the stronger suggestion. All short holes are for the most part mental hazards and are designed purposely to distract the player. If the bunker were removed, the player would realize how ridiculously easy some of the present formidable looking short holes are. Distraction may come from having different lines. Aim in golf is something far more than getting the feet in the right position. This is clearly seen in the case of those holes where there is an out of bounds

to the right. The player usually faces away from the danger to avoid it, but instead the tendency is still to think of the out of bounds and unconsciously he aims in this direction. The result is usually a worse shot than before. In fact the stars try to reproduce the above conditions when they deliberately try for a slice.

The putting green is a fertile field for the study of golf psychology. Due to the fact that the putt is the last stroke the mistakes of the green become more apparent. It is oftentimes the last chance to recoup oneself against bad play in the field. The hole is more or less a converging point. Players become anxious and apprehensive, for they know what it means to hole or miss a putt. We hope we may hole it, but fear we may not. The agitation is increased if one happens to have a reputation for bad putting. The task is made immeasurably more difficult if some one insinuates, while the putt is about to be made, that it is going to be missed. If one is blessed with a good putting style and is able to ignore such distraction, no harm is done. But for the person who is laboring under a bad putting spell such remarks are almost criminal.

Confidence on the green is more important than anything else. With it wonders can be accomplished, even with a defective technique. Without it the most perfect mechanical swing is rendered useless. Usually when a player feels he can hole a putt he does so, and the converse is true also of missing one when the player thinks it impossible of holing. Coue's explanation is that the unconscious accepts our fears and doubts because they are stronger, and realizes them. The cure is to think success. How this is to be done is the rub. It will depend largely on the ingenuity of the player. So long as he eliminates effort and remains quiet and calm, the problem should not be insoluble. Nothing succeeds like success, and this is the reason why a champion is usually so hard to dislodge from his position. The reputation of a formidable player is an additional handicap for the young golfer to overcome as long as he dwells on it. It has well been said: "Cowards die a thousand times before their death; the valiant never taste death but once." (Copyrighted British & Colonial Press, Limited.)

PROMINENT VISITORS COMING

Prominent visitors to Alberta during the next few months will include Charlie Chaplin, the motion picture comedian, who is to attend the Calgary Stampede; Harold Lloyd, the comedian, who is coming next month and a score or more of prominent writers from the United States who plan on attending the Calgary Stampede and visiting other points of interest in the province. These include Jack Laist, of Hearst publications; Chas. Peters, artist of "Life"; the "London Sketch"; William Slavins McNutt, of Collier's, and Heywood Brown, of the New York World. It is expected that these visitors will also be on hand for the opening of the Banff-Windermere highway on June 30th.

MISPLACED SYMPATHY

A man named Brown lost his wife. A neighbor of the same name had lost a best by theft. The vicar's wife, out to console with the bereaved, called on the latter by mistake. "Oh, it doesn't matter much," was the reply, "she wasn't up to much." Taken aback, the good lady could only ejaculate "Indeed!"

"Yes," the man continued, "she was a rickety old thing. I offered her to my brother, but he wouldn't have her. I've had my eye on another for some time."

Whereat the outraged lady fled.

Public Schools Inspector, J. R. Hutchinson, was in town over Sunday. We know a giddy girl!

A GRAVE MISTAKE

In our last week's issue we referred to "Mayor" McDonald, of Macleod, as an ex-K.C. We humbly apologize.

Last week a joyous party was held in the home of a local citizen, where it was hoped after a few hours of "proper" entertainment to have a big feed. A cook was engaged and given all the needful for his work. He was dispatched early to the kitchen. There he figured he would wait just long enough to decide whether or not he was being remembered by the rest of the party. Deciding in the negative half an hour later, he crawled out through a coal chute to freedom and went to buy a negin of liquor to assuage his thirst and anger. A little later a member of the party approached the kitchen to order that the good things be served, only to find the stove cold; the raw goods untouched and the cook gone. What a disappointment!

After examining the bank accounts of nine hundred bootleggers, the Georgia revenue collectors promise to make them contribute one million dollars income tax.

A grand dance will be given in the Union hall at Hillcrest on Wednesday night next, under the auspices of the Hillcrest Intermediate Football Team.

J. B. Risk and wife and daughter left here yesterday for Vancouver. We understand that they will return in the course of a week or two.

Call A National Coal Conference

Addressing the Canadian Club at London, Ont., recently, Sir Henry Thornton, President of the Canadian National Railway, dealt with the problem of making Alberta coal available for use by the people of Ontario—a subject discussed in this column in recent issues and which, because of its importance, to all Canada, we venture to refer to again even at the risk of being wearisome.

In his address, Sir Henry Thornton said that, while unable and unwilling to tender any definite promise, it was just possible that coal could be brought from Alberta to Ontario without loss to the Government railways at a price that would practically eliminate the United States mining interests as serious competitors for Canadian patronage. Sir Henry added: "This is a big problem and I speak with every hesitation. It is largely a matter of freight rates. It may be possible that we shall be able to fix the rates in order that the coal may be brought to Ontario with a small profit to ourselves. We cannot, or will not, undertake to handle it at a loss."

Having made the above statement as to the position of all Canadian National Railways, Sir Henry uttered a warning to all other interests concerned when he declared that, should the C.N.R. find it impossible to adjust freight rates in such a manner as to transport Alberta coal to Ontario to compete with United States coal, the mine owners of Alberta and the distributors of coal in Ontario must shoulder their share of the burden and not increase their rates.

Summed up, the position in relation to this vital national question of an adequate fuel supply for the Eastern Provinces is, briefly, this: Alberta has the coal, lots of it; Ontario has no coal, is forced to buy from the United States, thus draining millions of dollars out of the Dominion and forcing up the adverse balance of trade against Canada; and in recent years Ontario has been unable to secure sufficient coal at any price from the United States to meet the needs of its people; the only obstacle in the way of replacing United States coal with Alberta coal is the long railway haul and consequent heavy freight.

The President of the C.N.R. says it is possible, but not probable, that the present freight rate can be reduced sufficiently to enable Alberta coal to compete with U.S. coal and still yield a small profit to the railway. Sir Henry distinctly says they will not haul coal at a loss—and, in view of C.N.R. finances, slightly so—but this does not imply that they would not haul at actual cost, assuming that the earning of even a small profit would operate to prevent the business altogether. If there was an existing coal traffic between Alberta and Ontario on which the railway was now making a profit, the C.N.R. might well hesitate to forego even this, but as no such traffic now exists, the railway would lose nothing by regarding a business which would snuff out, even if it did not yield a profit.

The mine owners of Alberta should consider this question in the same light. They now have no business in Ontario; it is a new field for them, and, like most business men, they could well afford to supply coal to Ontario at a very small margin of profit, or even at cost for a period while developing that new market. Even so they would find it profitable because they would be able to so largely increase their output as to reduce all overhead expenses proportionately, and, by reason of providing steady, all-the-year-round employment for miners, greatly assist in solving one of their present big problems—labor, including hours of work and wages.

The Ontario coal distributors, too, must, as Sir Henry says, be prepared to do their part in this great national and economic development. Those now engaged in handling U.S. coal will probably be opposed to handling Alberta coal at a smaller commission or smaller margin of profit. If so, new agencies for the handling and distribution of Alberta coal in Ontario can assuredly be created, and arrangements made for the financing of such business on a small but safe margin.

It is not Ontario alone that is vitally concerned in finding a solution to this problem. The West is deeply interested, because anything that will lead to a partial solution of labor difficulties at the Alberta mines, that will reduce overhead costs of production and administration, and encourage larger consumption of Alberta coal, both as to price, quality and quantity.

With the Canadian National Railway prepared to discharge its full duty in the inauguration of a truly national coal policy, surely the time is ripe for the holding of a representative national conference of Governments, both Federal and Provincial, railway executives, mine owners, coal distributors, representatives of the miners themselves, and bankers, at which each group should lay their cards on the table and say what they are prepared to do to make such a national policy possible and a success.

No time should be lost in having such a round table conference take place.

Half and Half

Rural and City Dwellers Abound

Equally Divided in Canada

An interesting compilation based on Canada's census returns shows that the population is divided equally between city dwellers and country dwellers. The total urban population is given as 4,352,772 and was total rural population 4,352,770. In Prince Edward Island the rural population is as high as 78 per cent of the whole, and in Saskatchewan 71 per cent. In only two provinces—Ontario and Quebec—the rural population smaller than the city population. The total rural population of the three prairie provinces is now given as 1,252,753 as compared with \$19,042 in the census of 1911.

Shire Horses for Canada

Shire Association of Great Britain

Sends Five Horses to Alberta

The gift of six fine shire horses to the Shire Horse Association of Great Britain to the Dominion of Canada is to go to the Lacombe Experimental Farm in Alberta. The horses reached Canada recently in charge of G. B. Rothwell, Dominion Animal Husbandman, who states that they will come into direct contact and comparison with the popular draft breeds already here. They will be exhibited at various shows in Western Canada this summer. With the horses came a consignment of Ayrshire cattle for the Experimental Farm at Ottawa and a number of sheep for the various stations.

Mother and Her Baby Are Relieved of Eczema

Mrs. Peter A. Palmer, Salt Burn, Sask., writes: "Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicine, the Nerve Food, having restored my health after suffering from severe nerve trouble when a girl."

Speed of Birds

Aeroplanes Can Now Travel Faster Than Any Living Creature

Man has beaten the birds at their own game, observers declare. Records of over 200 miles an hour recently obtained by aviators at Dayton, Ohio, is declared to be speedier than any other living creature we know of. Some species of hawks have a speed of 200 feet a second, or about 135 miles an hour. The canvas-back duck can fly from 120 to 160 feet a second, but its usual rate of 60 to 70 miles an hour would be pretty slow to be enjoyable in an airplane making a pleasure trip. The crow is the least rapid of a list of 22 migratory birds, flying an insignificant average of 45 feet a second or 30 miles an hour. Curlews and jacksnipes can fly 55 to 65 feet a second, while quails, prairie chickens and ruffed grouse can make 75 feet. The dove can reach a speed of 100 feet a second, or 65 miles an hour, although its usual rate is less. Red-heads, blue-winged teals, green-winged teals, Canada geese and different varieties of brant can fly over 100 feet a second, ranging in speed from 82 to 95 miles an hour, but usually fly at a much slower rate.

Painful Sprains, Bruises Restored By Nerviline

There is nothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly, it takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If you are stiff and you are suffering from rheumatism or lameness, or Sciatica, whether you are young and strong, use Nerviline. It works where the pain is internal or external. Get a large 25 cent bottle from your druggist.

New Passenger Service to Ireland

Inauguration of a new passenger service from Canada to Ireland, with weekly calls at Belfast by the Canadian Pacific line, is announced for the opening of the St. Lawrence navigation. Westbound calls at Belfast will be made as in the past, which service is stated to have proven very successful.

SATISFIED MOTHERS

No other medicine gives the same satisfaction to mothers as Dr. Baby's Own Tablets. They are equally good for the newborn babe or the growing child and are absolutely guaranteed to be free from opiates or other harmful drugs. They are mild but thorough, laxative and cannot possibly do harm—they always do good. Concerning this, Mrs. Jos. Ache, Coleman Road, N.B., writes: "I think that Baby's Own Tablets are a marvelous medicine for little ones. I gave them to my little girl with such good results that I now strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brooklyn, O.

Some Few Powder

Beauty Hint—A woman at Nottingham, Eng., who has worked several years as a chimney sweep, says her work has improved her complexion.

Requisites on the Farm.—Every farmer and stock raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it has far surpassed anything that can be administered.

Increase in B.C. Mining

Output Last Year \$7,992,202 Over Previous Twelve Months

British Columbia mining production for the last year with a total output valued at \$7,992,202 shows an increase of 25 per cent over the previous year, according to the report of the Hon. Wm. Sloan, Minister of Mines. The actual increase was \$7,992,202.

This year's production, it is estimated, will run over forty million dollars, and close to fifty million. The final returns for the year bear out the prediction of Mr. Sloan some time ago that the mining tide had turned and everything pointed to greater and more permanent business development than ever before, with a large increase in the number of properties working.

Conditions in British Columbia are now such, Mr. Sloan says, that they have reached a point where a margin of profit for the miner is visible. It is extremely gratifying to note that the output for the year has only been exceeded three times in the history of mining in the province and that was in 1915, when production reached \$42,290,482. In 1913 when it was \$41,782,474, and in 1920 when the value was \$35,543,018.

Largest Saw in the World

The largest saw in the world, measures 108 inches in circumference, weighs 795 pounds, has just been installed in a lumber mill at Hiquiam, Wash.

Migrating to Canadian Prairies

Romance in the Game of Settling Farm Lands

(By G. C. Porter of Winnipeg)

St. Paul, Minn.—There is romance in the game of settling farm lands from the viewpoint of this section of the United States. It was through this gateway that the Dakotas, Montana, Minnesota and Wisconsin received their crowds of homesteaders, the majority from abroad, Central Europe and Scandinavian countries supplying unusual quotas, and it comes natural for the second generation of these pioneer people to migrate to the Canadian prairies and repeat the experiment in cheap lands. In other years these heads have supplied the cream of the movement northward and there are many indications that the movement from this section will be heavy this year toward the Canadian prairies.

R. A. Garrett, a veteran of the service and a keen mentality, is in charge of the St. Paul immigration station for the Dominion Government, while George Cook is the agent at Watrous, S.D., and W. E. Black is handling the Canadian Government's immigration business at Fargo, N.D. A. H. Davis is in charge of the Natural Resources Branch of the Canadian National Railways at St. Paul and J. M. Macallister performs a similar duty for the Canadian Pacific Railway here. These gentlemen are very optimistic over the prospects of immigrants and land buyers going north this spring. Their estimates of prospective arrivals vary from fifteen to thirty per cent. Mr. Davis went so far as to tell me that his inquiries and prospects are better today than they have been during the past few years and all signs indicate that the inquiries for land to buy, rent and homestead on the prairies and British Columbia were of a volume to be most promising.

Independent dealers in Canadian farm lands of which there are many in these three centres of activity, are not so enthusiastic though they admit that prospects of doing business north of the line this season are better than for some years. I have been told that these independent salesmen, who represent a very considerable element of the speculators, that the wild land tax on the prairies has made many of the American investors shy. They claim they can't interest the man who wants any large blocks of farm lands on the prairies or in British Columbia for purely speculative purposes on this account. Their business today is confined more to that class of people who want to buy improved farms on which to live in Canada.

Heaven helps those who help others to help themselves.

HUSBAND DIDN'T DARE LEAVE HER ALONE HEART WAS SO BAD

Those feelings of faintness, those dizzy spells, the all-gone sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

MILBURN'S HEART AND NERVE PILLS

Have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system. Mrs. C. Vanhorn, Eekville, Alta., writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would not feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would come on before they could get me. I was so bad that I was almost dead. I took them and felt much better, so continued all winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me." Price 60¢ a box at all dealers or by mail from The Dr. Williams' Medicine Co., Ltd., Toronto, Ont.

A Charming Dinner Or Dance Frolic

Peelkresc Roma, of tangarine tint, with a silver-cire girdle makes up this chic frock which could be worn as a dinner or dance frock by the debutante. The bodice, which is without ornament, follows the straight line set of Paris. The uneven side panels are caught with metal rosettes and are strikingly accentuated by a soft diagonal overdrap. The girdle which is very distinctive is embroidered in steel.

A Divorce Granted

After many years of patient suffering, you can be divorced from corns, you can get rid of them completely by applying Patnam's Corn Extractor. This wonderful old remedy acts in 24 hours and never fails. Refuse to substitute and remember "Patnam's" is the only Painless remedy. 25¢ every where.

Top-Notch Steering

Grasping Wheel Near Top Best Position in Traffic Steering is made easier—and in many instances safer—by grasping the wheel at the sides, near the top. With the hands in this position a quicker, sharper and easier turn can be made in either direction. A full right or left turn can be made with one downward pull on the wheel by the hand on the respective side. For ordinary driving it may be more convenient to keep the hands at the bottom of the steering wheel rim but when driving through traffic or on a winding road, the top of the wheel is best for top-notch steering.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirty years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at once. Sample box, 5¢. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

Synthetic Coal

High Grade Anthracite is Produced From Stone Quarries

German science, it is reported, has actually succeeded in manufacturing synthetic coal. The achievement is credited to a Munich pharmacist, Prueckner by name, who is reported to have produced a high grade anthracite from stone quarries. The production of synthetic coal equal in every respect to anthracite, is said to have been established beyond doubt by a number of official practical tests. The process of making synthetic coal is simple, according to the inventor of the method, who is quoted as saying that two different kinds of soft stones are crushed and ground into fine sand and mixed with certain chemicals.

Big Threshing Bill

Estimates recently made of the cost of threshing Saskatchewan's 1922 crop placed the figure at \$57,000,000, which is perhaps the biggest threshing bill on record.

Crushed egg shells are excellent for cleaning pans, enamelled saucepans, and the like, and you remove every speck.

Minard's Liniment for Falling Out of Hair

SAYS IT'S WORTH WEIGHT IN GOLD

Mrs. Matthews Pays High Tribute To Talcus For Ending Stomach Trouble

"I am so thankful for the wonderful benefits I have received from the Talcus treatment I just want to tell everybody in Toronto about it," declared Mrs. Ellen Matthews, 104 Eastern Ave., Toronto, Ontario.

"I suffered so terribly with stomach trouble and a run-down condition that I feared nervous collapse. My appetite almost deserted me and even the little I did manage to eat disagreed with me, and I bloated with gas till my heart palpitated and I was dreadfully short of breath. I couldn't get a good night's sleep and was so worn out I couldn't even do my errands to the store."

"I heard so much praise of Talcus I finally bought a bottle, and it was worth its weight in gold. Six bottles have made me perfectly well, without a sign of the old troubles I had suffered with for seven years, and my weight has been increased, too. I consider it a duty to recommend Talcus."

Talcus is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Improved Airplane Wings

Inventor Claims Lifting Efficiency Increased Ten Per Cent.

An improvement of at least 10 per cent in the lifting efficiency of aeroplane wings is expected to be made by an inventor of Wichita, Kan., patented by a young ex-officer of the flying corps in England.

He claims to have discovered the method by which crows and other birds glide at the angles, and experiments which have been made with gliding models suggest that the wing tip feathers are not merely for balancing purposes, but contribute largely to the lifting capacity.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Apartment Hotel for Victoria

Plans are under way at Victoria for the erection of a modern apartment hotel to cost in the neighborhood of \$600,000. The proposed building is of a type that is being erected in large centres of population and is particularly adapted to the tourist trade. There has been a large increase in tourist traffic to Victoria and the island during the past few years, many people coming from the Western States and the prairies.

ECZEMA

You are not alone in suffering from Eczema. Dr. Chase's Ointment has cured thousands of cases. It relieves at once and gradually cures the skin. Sample box 5¢. Chase's Ointment free if you mention this advertisement. Write for it. Get it at all dealers or KIDMANSON, Bates & Co., Ltd., Toronto.

MONEY ORDERS

New Colonizing Policy Is Announced By Pres. Beatty, C.P.R.

Montreal.—In a statement of a new land colonizing policy of the Canadian Pacific Railway, made public here by H. W. Beatty, K.C., President of the company, it is announced that the indebtedness of farmers who now have contracts with the company will be taken over by the Canadian Pacific Railway, and their contracts will be re-written and the indebtedness spread over a period of 34 years, the farmer to receive title to his land upon completion of the thirty-fourth payment. No annual payment of interest and principal combined shall exceed 7 per cent. of the cost of the farm. Thirty thousand farmers in Canada are affected by this proposal.

In making the announcement, President Beatty said in part:

"The future of Western Canada, in fact, of Canada as a whole, is dependent upon greater production. If farmers were even fairly well satisfied with their conditions, it would greatly facilitate the securing of more and desirable settlers. There is at present a considerable exodus from the west which is practically nullifying the efforts of the Canadian Pacific Railway and the Government to encourage new peoples to come in."

"The loss of people to the country is a loss to the Canadian business in general, affecting manufacture, commerce, transportation, etc. To get desirable immigrants we must have, fairly well satisfied settlers."

"Under the new Canadian Pacific plan, farmers will now be able to be successful upon their holdings and the Government and the railroads be in a position to encourage prospective settlers to take up unsold or unoccupied farm lands. In Great Britain, the United States and other countries, from which desirable immigration is ready to flow, a marked stimulus to land settlement will without doubt result from the introduction of the new policy as outlined."

Sentenced To Hang
Moonipah, Sask.—Convicted of the murder of three persons, Victor Mason will expiate his crime on the gallows at Regina Jail, August 15. Pleas of insanity and manslaughter failed at his trial here, and after an absence from the court room of 32 minutes, the jury returned and announced that they had found the prisoner guilty of the murder of Jean, Marie and Leonie Chouveau at their farm at Dumas, Sask., February 18 last.

War On Bootleggers
Victoria, B.C.—A war to the death on whiskey runners and other bootleggers was ordered by Attorney-General Manson following a conference with police heads from the four police districts of the province. Necessary measures to make the force a more vigorous instrument for enforcement of the law are being discussed.

Urge The Development Of A Western Outlet For Grain Shipments

Ottawa.—John M. Truie, head of the Edmonton Board of Trade delegation, appeared before the special House Committee on agriculture to urge development of the western outlet for western grain. This would be a benefit, he said, to agriculture over all Canada.

The opening of a new all-rail route would benefit agriculture eastward of Alberta and grain from that province would be saved several cents a bushel by going via Panama Canal instead of by the Atlantic seaboard. The removal of differential against westbound freight would add another six cents to the saving.

Even at present there was an advantage as far east as the centre of Saskatchewan in shipping via the Pacific, he claimed. Last year's crop been equally heavy in all sections of the west, the existing channels to the seaboard would not have been sufficient to handle the flow.

Mr. Truie declared there was a greater grade eastward from Edmonton than from Edmonton to the Pacific coast over the Canadian National. He said he could see no physical reason for the differential on the C.N.R.

The difference of seven cents per bushel would have added 10 per cent. to the income of Alberta farmers last year.

The second outlet was imperative even if it did not increase the

PAY VISIT TO POPE

KING GEORGE AND QUEEN MARY RECEIVED AT VATICAN
Rome.—Pope Pius received King George and Queen Mary in solemn audience in the Apostolic Palace of the Vatican. Their Majesties were accompanied by the lion, Theophilus Russell, British Minister to the Holy See and by their suite. They drove into the Vatican through the gate of the Mint and upon arriving on the court of the St. Damasco were accorded military honors by the Papal Guards and a detachment of pontifical gendarmes.

Loyal to the Crown

Strong Bonds That Bind Canada to Great Britain
Toronto.—Sir Edward Kemp, who has just returned from a trip to Great Britain, stated that he had found a certain apprehension in the old land as to a movement of sentiment in Canada toward absorption by the United States.

This feeling arose through the discussion on the point of whether a Canadian minister should sign the recent fisheries treaty with the United States rather than have it signed by Sir Auckland Geddes, the British ambassador at Washington.

It will be remembered that Sir Auckland thought his signature sufficient, but Hon. Ernest Lapointe did the signing.

"I told the British people to whom I spoke that they need have no fear on that score," said Sir Edward.

"I told them that the two dominant races in Canada wanted the relations of Canada and the Empire to remain precisely as they are now—that there was no chance of lessening the bonds that bind Canada to Britain."

Cattle Sale In Saskatoon

Good Attendance Is Expected At Auction In June

Regina.—A number of buyers from outside points will probably attend the annual pure-bred cattle sale to be held at Saskatoon, June 5 and 6 under the auspices of the Saskatchewan Cattle Breeders' Association.

Seventy bulls will be judged the first day and put up for auction, including 45 Shorthorns, 10 Herefords, 10 Angus and five dairy bulls. On the second day Shorthorns, Herefords and Angus cows will be submitted.

It is anticipated that R. S. Hamer, chief of the Cattle Division of the Federal Department of Agriculture, will probably be a buyer. As the sale will be conducted after feeding has been completed, it is anticipated there will be a good attendance.

Trider Charged With Murder
Calgary.—E. E. Trider was committed for trial on the charge of murdering Constable Paris, of Drumheller, at that place.

While resisting arrest on a liquor charge, Trider drove his automobile into a board fence in attempting to brush Constable Paris off the running board. Paris was fatally injured.

League Will Assemble Sept. 30
Geneva.—The assembly of the League of Nations has been convoked for Monday, September 30. The most important items on the agenda are reduction of armaments and the proposal of the Canadian representatives for an amendment to article ten of the covenant.

They Save Every Minute of It

Spokesman (at largely attended meeting).—And he it resolved, that if humans were to emulate us in the matter of Daylight Saving it would be very much to their benefit both in health and happiness, and such time and energy wasting controversies as are taking place at present amongst these would be unnecessary. (Unanimously approved.)

Explanation Of

Abnormal Weather

Sir Frederick Stupart Gives Reasons For the Late Spring

Toronto.—Sir Frederick Stupart, Director of the Meteorological Survey of Canada, in an interview explained just why the country is being treated to such unseasonable weather as has prevailed over so wide an area.

"In connection with spring of this year," said Sir Frederick, "it has been shown that the persistent development of areas of high pressure in Arctic America and their subsequent movement southward has led to an abnormal flow of air from the northward over Central and Eastern Canada, bringing with it the low temperatures of high latitudes. The type which prevailed during most of the past winter and spring is not yet broken, and the present cold wave is quite similar to many that have occurred in months past. It is a flow of air from the far north filling in behind a barometric depression passing slowly eastward across Southern Canada."

Wealth Of Canada

Bank Deposits Indicate Canadians Richest People of the World

Toronto.—If public deposits in banks and loan companies can be taken as a fair indication, the Canadian is the world's richest man, said F. A. Hatch, of Hamilton.

"These deposits amount to upwards of two billion dollars, or \$250 per capita."

Mr. Hatch was addressing the annual meeting of the Ontario Branch of the Canadian Manufacturers' Association, of which he is the retiring president.

"What the farmers and manufacturers should realize a little more is that their interests are not conflicting, but identical," he said. "The hard times of the last two years have at least produced clearer and sounder views in regard to this."

Report Seizure of British Trawler

Hull, Eng.—It is reported that another British trawler, the Lord Astor, has been seized off the Murmansk coast by a Russian gunboat, says the Central News. The seizure was based on the charge that the trawler had been fishing within the Russian territorial limits.

Freight Rates On Grain For Export Have Been Lowered

Russ Delegate Assassinated

Head of Russian Soviet Delegation at Peace Conference Is Killed

Lausanne.—M. Vorovsky, head of the Russian Soviet delegation at the Lausanne peace conference, was assassinated here. He was shot several times and killed outright. M. Aherns, head of the Soviet press bureau in Lausanne, and another Russian were wounded, the former seriously.

Vorovsky and his party were dining at the Hotel Cecil. A young man seated a few tables away arose after he had finished his dinner, calmly walked over to the Russians' table and opened fire without warning. Vorovsky was the first victim, and the assassin then turned the weapon on Aherns, who was struck by three bullets. Aherns, nevertheless managed to draw his revolver, but a waiter rushed forward and knocked up his arm. Meanwhile the assassin shot the other Russian, Didvilowski, in the body.

The assassin was seized as he attempted to escape. His name is Maurice Alexander Conrad, and according to the police, who subjected him to a severe grilling, he belongs to the Canton of Grisons. He is 35 years old and was born at Anders. He expressed no regret and admitted that he had formerly served in the Russian army. He returned recently from Russia and came to Lausanne from Zurich, where he had been residing. Conrad told the police that his uncle and brother had been tortured and murdered by the Bolsheviks during the terror in Russia. His act in shooting the Russians, he declared, was one of vengeance.

Not Making Much Progress

Lausanne.—Ismet Pasha, chief Turkish delegate, told Turkish newspapermen that agreement had been attained on many "minor points" by the Near East conference but that progress whatever had been made in regard to those questions on which the fate of the conference depends.

Hot Down In Georgia

Calexico, Cal.—Extra coaches were added to all coast bound trains to carry those seeking to escape from the heat. The hot spell continued, with the temperature ranging from 104 to 110 degrees throughout the Imperial Valley.

Settlers From Indiana

Indianapolis, Ind.—The Canadian Government agency at Indianapolis reports increasing interest in Western Canada, with prospects of a large party of land seekers starting early in June. Farming operations here are later than usual.

China Learning By Mail

Tientsin, China.—For the first time in Chinese educational history, correspondence schools have been started here. They are in connection with the new school of civilization opened here by Liang-Chichao, eminent Chinese scholar.

Want Postponement Of Final Revision Of The Bank Act

Ottawa.—Notice of motion for a postponement of final revision of the Bank Act until next session, and an extension of the charters of Canadian banks for one year, was given by A. Speakman, Progressive member for Red Deer, in the committee on banking and commerce.

The reasons given by Mr. Speakman in the preamble of his motion, were that the scope of the investigation had been widened to include a general investigation of the basis, function, and control of credit, and a large amount of data had been submitted to the committee in this connection; also that the vital nature of the investigation was now becoming apparent and that the situation was recognized as serious; that it would be impossible for members to give adequate consideration before the end of the session to evidence submitted; that rural credits were under consideration by the Agriculture Committee, which might make recommendation in this regard; that the War Finance Act was still in force and took precedence over the Bank Act in many particulars; that answers received to questionnaires sent out by the Progressives demanded careful consideration; that the proposed economic conference of the British Dominions would afford opportunity for discussing some of the wider features of banking; and, finally, that the Canadian Council of Agriculture and the Legislatures of Manitoba and Alberta had petitioned for a postponement of the revision.

There was considerable discussion of the provision which states that the number of bank directors "shall be not less than five and the quorum thereof not less than three." The clause carried.

W. C. Good (Bram) had an amendment, which provided that a director could not be elected without a majority of the votes of the shareholders. This was defeated.

Section 60 of the bill, which provides that no dividend of profits exceeding eight per cent. per annum shall be made, unless after making the same, the bank has a revenue fund equal to 30 per cent. of its paid-up capital, was carried. This clause provides that the directors, who knowingly incur in such division of profits shall be jointly and severally liable for the amount divided.

Floods In New Zealand

River Banks Broken As Result of Heavy Rainfall

London.—The London Morning Post's Wellington, N.Z., correspondent cables that the worst flood since 1863 has occurred throughout the northeast section of the province of Canterbury and also in the province of Marlborough.

As a result of phenomenal rainfall, river banks have been broken, roads and railway tracks destroyed and there have been heavy losses of farm stock and enormous damage to property. The floods are now receding, but the weather is still unsettled.

Krupp Directors Enter Appeal

Have Taken Matter of Convictions to Upper Tribunal

Duesseldorf.—An appeal from the sentences returned against Baron Krupp von Bohlen and the directors of the Krupp works by a French court martial at Weimar has been filed by the attorneys for the defence.

Baron Krupp von Bohlen and the other defendants were brought here and placed in the French military prison pending the decision of the upper military tribunal.

Demands Of Mounties

Ottawa.—J. J. Roberts, of Vancouver, Past President of the Royal North West Mounted Police Veterans' Association of Canada, is here as a special delegate to again lay before Sir Louis Gouin, Minister of Justice, the scrip and pensions demands of former members of the Mounties who served in the Riel Rebellion in 1885.

Jail For Debt Frauds

Montreal.—Prison without any option of fine for fraudulent debtors, is recommended by the Legislation Committee of the Chambre de Commerce with regard to the Bankruptcy Act.

ORPHEUM THEATRE

FRIDAY, MAY 18 "Forsaking All Others"

From the Sensational Collier's Weekly Story by Mary Lerner directed by E. Chautard, also the 11th Episode of "PERILS OF THE YUKON"

SATURDAY, MAY 19 "THE CHRISTIAN"

The most dramatic story ever told in pictures. Powerful in its message of Love and Devotion. Powerful in its exposition of the passions, lust, sacrifice, tenderness of humanity. A film that we can recommend to our patrons.

MONDAY, MAY 21 "The Heart of Maryland"

A screen adaptation of the famous D. Belasco stage play which is regarded as a photoplay classic. A film that will live for years. Also 3rd episode of the "TIMBER QUEEN"

TUESDAY, MAY 22 MAY McAVOY in "The Top of New York"

You don't need an airplane to see the top of New York, just come to the Orpheum on Tuesday night. Real folks, real thrills, real heart throbs. You'll enjoy every minute, together with a real funny comedy.

WEDNESDAY, MAY 23 "My Friend the Devil"

Based on the stirring novel "Dr. Rameau," by the famous French author Georges Ohnet, directed by Harry Millarde, with an all-star cast. Also Two Real Sunshine Comedy.

THURSDAY TO BE ANNOUNCED ON THE SCREEN. COMING! JOHN BARRYMORE IN "SHERLOCK HOLMES." Not a serial, but a 3-act Goldwyn Super Feature.

Lots of fellows who cannot afford a meal ticket in their own town will rustle for a ten to fifty-dollar seat for the Dempsey-Gibbons fight at Shelby on July the 4th.

Frindship made in a moment is of no moment.

Mrs. H. C. Dillingham, of Innisfail, spent a few days in town, the guest of Mrs. J. W. Gresham.

Correct this sentence: "The wife returned after a week at her mother's and found all the dishes washed and put away."

Mrs. D. M. J. Conway left here by Monday morning's local for Calgary, then on to Athabasca Landing, where she will visit with her sister for a few weeks.

The annual provincial musical festival, which has been a feature in Alberta for years, and which has been adopted in other provinces and states, is being held in Edmonton this week.

FOR SALE—One Dominion Piano, in A-1 condition. \$325 cash or terms. Apply to Box 11, Blairmore.

FOR SALE—Upright Grand Piano in good condition. Cheap for cash. Also other household articles. Apply to W. Howe, senior, State St.

SNAP FOR CASH—A Piano, in good condition. Apply to Mrs. B. A. D. Hamilton, Phone 16-d, Bellevue.

FOR SALE—Household Furniture of four-roomed house. Cheap for cash. Apply Mrs. F. J. Novotny, Woodward Street, Blairmore.

FOR SALE—A First-Class 3-Chair Barber Shop for sale. All white enamel chairs. Anyone looking for a good place, it will pay them to investigate. Reason for leaving: climatic conditions. This shop is in the Arcade poolroom. Address J. P. RANKIN, Arcade Barbershop, Lethbridge, Alberta.

FOR SALE—Five-room House, with basement. Also a good chicken house. Price \$800. Apply to 53 Cement Street, Blairmore.

FOR SALE—Eighty acres of farm or ranch land, situated one and a half miles north of Frank, about forty acres improved and under hay. Good house, barns, etc. Apply to F. C. Germain, Frank, Alberta, P.O.

LARGE 11-ROOM BOARDING HOUSE for rent. Has full size basement. Located south of track, opposite Compositian hotel. Apply to L. H. Putnam, barrister, Blairmore.

A meeting of shareholders and directors of the Blairmore Coal Company was held here on Saturday last, when plans for the operation of the company's property were considered.

Mrs. L. H. Putnam has returned from Lethbridge. Mrs. Putnam is still unable to be around as a result of the recent accident at Lethbridge, in which she sustained a fracture of a leg bone.

Just watch—there are fellows securing fifty-dollar ringside seats for the championship boxing contest at Shelby on July the 4th, who would not help the needy on a bet or throw a dollar in the way of a good cause.

A friend of ours said he knew a young lady of "twenty-two" summers who has been teaching since he first met her seventeen years ago. Well, that's alright—a girl doesn't get older than 22 unless she's compelled to.

Mr. Neale, who conducted the Anglican services here and at Coleman on Sunday last, is to be ordained shortly and is likely to be incumbent of the St. Alban's and St. Luke's parishes as Coleman and Blairmore.

George G. McLeod, supervisor of enforcement of the B. C. Liquor Act, has been arrested at Vancouver, charged with obtaining money by false pretenses. He is accused of accepting fifty dollars in return for promising immunity. Who ever heard of the like? Ha, ha!

The Board of Public Utilities Commissioners have so far refused to grant permission to Blairmore School District 628 to raise money for the purpose of building a further addition to the main central school building. They fail to see eye to eye with the local school board as to the immediate necessity of spending fourteen thousand dollars for further accommodation, while at the same time the mere fact that nearly five hundred children are being looked after in eleven rooms should be sufficient to satisfy any reasonable thinking person that there was the most urgent need for greater accommodation. The principles of hygiene and proper ventilation cannot be secured where in a standard size room there are upwards of forty-five children, and the required results cannot be obtained where there is over-congestion.

While not altogether in sympathy with the idea of adding any further to the present large frame building, we feel that accommodation to the extent of at least two rooms should be provided for immediately; but the time has arrived when at least the foundation for a building of fire-proof construction and more modern appointments should be the objective.

Local and General Items

For funeral flowers phone 212. Crows' Nest Pass Undertaking Co.

J. B. and Mrs. Risk were business visitors to Fernie on Friday last.

A fine horse, valued at about \$400, was lost by E. J. Pozzi last week end.

There are 168 furnaces on the steamship Aquitania and her furnaces have 750,000 blades.

Some good fishing is being had these days in Upper British Columbia waters.

ST. LUKE'S CHURCH, Blairmore

Whit Sunday, May 20th—Sunday School at 2:30 p.m. Evensong and Sermon at 7:30 p.m.

Empire Day, Thursday, May 24—Special Service at 8 p.m.

Notices of Banns, Marriages, Holy Baptisms, Churching, Etc., should be left with Mrs. W. O. Evans, opposite the station.

Coleman's famous "Million-Dollar" football team came to Blairmore last evening and were properly entertained by the Blairmore All-Stars. Quite a number of fans were in attendance, mostly from Coleman, who were anxious to see what stuff they had invested in. Their team had no walk-away, the score of 2-1 speaking for itself. We could not gather the names of the Coleman aggregation, as not even the Colemanites knew them. The Blairmore line-up was as follows: Goal—Whitelaw; backs—Dugdale and McAndrew; half-backs—Hamel, Jepson and Ellis; forwards—Whitelaw, McVey, Shevels, Dugdale and Rhodes.

H. F. Weber, ranching near Creston, reports a batch of fourteen chickens from thirteen eggs.

CAMP SITE BEE

A clean-up bee is proposed to take place on the Blairmore tourist campsite on Wednesday afternoon next, under the auspices of the Blairmore Board of Trade and all people who have the welfare of the town they live in at heart. Here is your opportunity to come out and show that you are the type of citizen to be desired. There is much to be done in the way of fixing up the campsite and everyone owes a share of interest. Let's help make our town a place to be considered worth stopping in by the pleasure-seeking tourist.

A number of citizens, including G. N. Elwin, W. A. Henderson and Father Coleman, spent the afternoon of yesterday on the grounds and the result is most noticeable.

Dr. J. T. Ferguson, superintendent of Presbyterian missions, accompanied by Rev. J. Philip-Jones, of Lethbridge, and Rev. Mitchell, of Taber, of Coleman Institutional church, met the board and session of the Union church last night, to discuss plans for the proposed new Union church at Blairmore.
